10 January 2011

Original: English

Twenty-third session

Nairobi, 11–15 April 2011

Item 7 of the provisional agenda*

**Work programme of the United Nations Human Settlements Programme
and budget of the United Nations Habitat and Human Settlements Foundation
for the biennium 2012–2013**

**Proposed work programme and budget for the biennium
2012–2013**

Report of the Executive Director

Summary

The present document sets out the proposed integrated work programme and budget of the United Nations Habitat and Human Settlements Foundation for the biennium 2012–2013, which is based on the six-year medium-term strategic and institutional plan 2008–2013 endorsed by the Governing Council in its resolution 21/2 of 20 April 2007. The work programme and budget are built on the biennial strategic framework for 2012–2013 that was endorsed by the Committee on Programme and Coordination in June 2010. The budget was prepared in accordance with financial rules 302.1–302.5 of the United Nations Habitat and Human Settlements Foundation. The budget resources are necessary to implement the work programme of the United Nations Human Settlements Programme for the biennium 2012–2013 and to provide the required programme support for an effective delivery of the focus areas of the medium-term strategic and institutional plan. All figures are given in United States dollars, unless otherwise stated.

The Executive Director recommends that the Governing Council of the United Nations Human Settlements Programme approves the work programme and budget of the United Nations Habitat and Human Settlements Foundation for the biennium 2012–2013, as proposed hereunder.

* HSP/GC/23/1.

Introduction

1. In accordance with financial rule 302.1 of the United Nations Habitat and Human Settlements Foundation, the Executive Director of the United Nations Human Settlements Programme (UN-Habitat) submits herewith the proposed biennial programme budget of the United Nations Habitat and Human Settlements Foundation for the biennium 2012–2013. The present document sets out the integrated work programme and budget of the United Nations Habitat and Human Settlements Foundation for the biennium 2012–2013. The work programme builds on the biennial strategic framework for 2012–2013, as amended and endorsed by the Committee for Programme and Coordination during its fiftieth session, in June 2010.
2. The work programme and budget for 2012–2013 are derived from the six-year medium-term strategic and institutional plan for 2008–2013 that was endorsed by the Governing Council in its resolution 21/2 of April 2007. By the same resolution, the Governing Council requested UN-Habitat to refine the medium-term strategic and institutional plan by developing indicators, targets and priorities that meet the SMART (specific, measurable, achievable, realistic and time-bound) criteria for reflection in the strategic framework and work programme and budget. Accordingly, the medium-term strategic and institutional plan was refined and a results framework comprising a goal, strategic result, expected accomplishments, indicators of achievement and sub-expected accomplishments for each focus area, was completed in April 2009.
3. The medium-term strategic and institutional plan is being implemented incrementally through three successive biennial work programmes for 2008–2009, 2010–2011 and 2012–2013. By its resolution 22/7 of 3 April 2009, the Governing Council requested UN-Habitat to prepare a prioritized, results-based strategic framework and the work programme and budget for the biennium 2012–2013, both aligned with the approved six-year medium-term strategic and institutional plan.
4. The results chain in the present document has been aligned with the results framework of the medium-term strategic and institutional plan from which it was derived. Each subprogramme reflects the results from the focus area or areas for which it is the designated lead, as follows: subprogramme 1 leads focus areas 2 and 3; subprogramme 2 leads focus area 1; subprogramme 4 leads focus areas 4 and 5; and executive direction and management and programme support lead focus area 6. In this respect, the subprogramme objective, expected accomplishments, indicators of achievement and sub-expected accomplishments are derived from the results framework.
5. The work programme has been prepared in line with the six focus areas, although it is presented according to organizational units (divisions). Some expected accomplishments in the results framework were combined in the strategic framework and work programme documents to reduce the number of expected accomplishments in each subprogramme. A number of indicators were amended to make them qualitative, as recommended by the Committee of Permanent Representatives. In some cases, changes were necessary because it became evident that the necessary data would not be readily available, while others were amended on the recommendation of the Office of the Comptroller, for example, all those including the phrase “as evidenced by”.¹
6. The structure of the present document represents a departure from previous practice. First, the structure of the work programme follows the recommendations made by the Committee of Permanent Representatives during the preparation of the 2010–2011 work programme and budget document. In addition, it has been streamlined to make it more user-friendly and it incorporates the recommendations of the Advisory Committee on Administrative and Budgetary Questions (ACABQ) set out in its report (HSP/GC/22/5/Add.1). In line with the results-based management principles, the expected results drive the financial resource requirements and are linked to outputs. The document presents subprogramme tables that outline the results chain, including intermediate results also called “sub-expected accomplishments”, which provide a link between higher-level strategic results and outputs.
7. Second, the budget narrative and tables are now presented at the end of each subprogramme narrative for a comprehensive and logical review. The budget is based on estimates of expected voluntary contributions to the general and special purpose funds, along with estimates of the level of expenditures required to supplement the United Nations regular budget and technical cooperation resources for full implementation of the UN-Habitat biennial work programme and ultimately for the effective achievement of the focus area results. The budget covers the income and expenditure for

¹ Para. 2 shows the linkage between the medium-term strategic and institutional plan 2008–2013 and the work programme and budget for 2012–2013.

anticipated programme activities and programme support costs of the Foundation. Its format is consistent with the United Nations budgetary regulations, rules, policies and practices.

8. In addition to incorporating the recommendations of ACABQ, the present document has been reviewed by the Committee of Permanent Representatives to UN-Habitat, and its views and input have been taken into account.

9. The proposed programme budget has been submitted to ACABQ for its review and comments in accordance with financial rule 302.2 of the United Nations Habitat and Human Settlements Foundation. The report received from ACABQ in response has been issued as document HSP/GC/23/5/Add.1.

10. Since 2008, UN-Habitat has laid emphasis on strengthening internal collaboration across organizational units to achieve focus area results. To that end and to ensure the optimal use of internal expertise and capacities across the organization, the following measures have been adopted:

(a) A lead subprogramme has been designated for each focus area, with the Division Director, who is also head of the subprogramme, being accountable for delivery of the results for that focus area;

(b) Medium-term strategic and institutional plan focal points have been appointed to each of the four subprogrammes and three regional offices to coordinate the planning, monitoring and reporting functions for their focus areas and harness efforts across the programme to deliver focus area results;

(c) The medium-term strategic and institutional plan task forces have been replaced by six focus area teams and an enhanced normative and operational task force with the aim of strengthening coordination and collaboration across organizational units towards the effective implementation of the plan. The enhanced normative and operational task force is led by the Director of the Regional and Technical Cooperation Division, ensuring coordination of and collaboration on activities at country level with the help of Habitat programme managers;

(d) Division directors are accountable for the achievement of the plan's focus area results, supported by delegations of authority and accountability frameworks;

(e) Internal collaboration is embedded in the work of the Programme Review Committee and its tools, ensuring consultation and collaboration between organizational units on all UN-Habitat programmes and projects;

(f) The new knowledge management strategy and infrastructure facilitates and supports knowledge-sharing across organizational units.

11. The work programme and budget document is prioritized, as requested by the Governing Council in its resolution 22/7. While UN-Habitat plans to implement the full work programme, if it is unable to raise the required resources, such prioritization will facilitate decision-making on the allocation of available resources. Prioritization was undertaken at sub-expected accomplishment level using the following criteria:

(a) Priority [1]: Sub-expected accomplishments mandated by the Economic and Social Council, the General Assembly or the Governing Council;

(b) Priority [2]: Sub-expected accomplishments with strategic importance (i.e., that pertain to a global trend or challenge of increasing importance) and with a high potential for contributing to expected accomplishments;

(c) Priority [3]: Sub-expected accomplishments with lower strategic importance or with lower potential for contributing to expected results.

A. Programme overview

12. Responsibility for the human settlements programme within the United Nations system is vested in the United Nations Human Settlements Programme (UN-Habitat), which serves as the focal point for its implementation. The mandate of UN-Habitat derives from the twin goals of the Habitat Agenda, comprising "adequate shelter for all" and "sustainable human settlements development in an urbanizing world", which is an outcome of the United Nations Conference on Human Settlements (Habitat II). The mandate of the programme also derives from resolution 3327 (XXIX), in which the General Assembly established the United Nations Habitat and Human Settlements Foundation; and resolution 32/162, in which the United Nations Centre for Human Settlements (Habitat) was established by the General Assembly. By resolution 56/206, the General Assembly elevated the United Nations Centre for Human Settlements (Habitat) to the United Nations Human Settlements

Programme. UN-Habitat also derives its programme of work from other internationally agreed development goals, including those contained in the United Nations Millennium Declaration, in particular target 11 on achieving a significant improvement in the lives of at least 100 million slum-dwellers by the year 2020, and target 10 on water and sanitation of the Johannesburg Plan of Implementation. These two targets were subsequently reaffirmed by the General Assembly in the 2005 World Summit Outcome, which highlighted slum prevention as a priority issue in human settlements. Additional mandates come from relevant legislative bodies and resolutions of the Governing Council of the United Nations Human Settlements Programme. UN-Habitat is guided by its Governing Council, which reports every two years to the General Assembly through the Economic and Social Council and by the Committee of Permanent Representatives of UN-Habitat, which serves as a formal intersessional body.

13. The Governing Council of UN-Habitat, through its resolution 21/2, approved a six-year medium-term strategic and institutional plan for 2008-2013, and, in paragraph 3, endorsed the six focus areas and the enhanced normative and operational framework of the medium-term strategic and institutional plan, and requested the Executive Director, in consultation with the Committee of Permanent Representatives, to elaborate a process for improvement of the plan, including the agreement of specific “SMART” indicators, targets and priorities in order further to refine each of the focus areas and for reflection in the United Nations Human Settlements Programme’s strategic framework and work programme and budget.

14. In line with the above-mentioned Governing Council decision, UN-Habitat undertook refinement of the plan by developing a comprehensive results framework which includes a SMART goal, strategic result, expected accomplishments and indicators of achievement as well as a strategy paper for each of the six focus areas of the plan. This process, which was supported by a results-based management expert, took eight months and was completed in April 2009.

15. By paragraph 6 of Governing Council resolution 22/7, the Council requested the Executive Director to ensure timely and close consultation with the Committee of Permanent Representatives during the preparation of a prioritized, results-based strategic framework and the work programme and budget for the biennium 2012–2013, both aligned with the approved six-year medium-term strategic and institutional plan. The elements of the strategic framework for 2012–2013 are therefore derived from the refined results framework of the medium-term strategic and institutional plan.

16. An emphasis on results-based management will continue to shape the programme planning, performance management, learning and accountability of UN-Habitat. A midterm evaluation of the medium-term strategic and institutional plan will be undertaken in 2010, and depending on its outcome, this strategic framework may need to be revised to align it with the new realities and decisions. In that event, the provisions of General Assembly resolution 58/269 are expected to prevail. Strategic choices made in this biennium programme plan have been largely informed by lessons learned and best practices from the UN-Habitat programme performance report for the previous biennium, monitoring and evaluation reports, and inputs from strategic partners.

17. As indicated in the UN-Habitat flagship reports, cities are the habitat of half of humanity and, by 2050, 70 per cent of the world’s population will reside in urban areas. Urban growth averages 5 million new urban residents per month in developing regions where many new mega-cities of 10 million and hyper-cities of 20 million will emerge. In developing countries, the result of this is the rapid growth of slums and informal settlements, whose population currently stands close to 1 billion, or 32 per cent of the world’s urban population. Emerging data trends repeatedly indicate that the urban poor face inequitable and life-threatening conditions, poverty, environmental disasters and social crises. A key problem is that most of this rapid and uncontrolled urban growth is taking place in countries whose Governments are least able to cope with the provision of adequate housing, urban infrastructure and basic services. The main social effects of unplanned urbanization include inadequate housing, chaotic peri-urbanization, lack of basic services, especially safe drinking water and sanitation, lack of secure tenure, vulnerability to natural and human-made disasters and crime, uncertain employment, as well as social exclusion of the poor, vulnerable and other disadvantaged groups, including the disabled, youth and the elderly. The recent economic crisis has exacerbated urban poverty, accelerated unemployment and rapid expansion of the urban informal sector with its low-profit activities and a disproportionate concentration of women. The fourth session of the World Urban Forum noted the particular vulnerability of indigenous peoples to the effects of chaotic and unplanned urbanization. In spite of these challenges, it is increasingly accepted that urbanization is a positive phenomenon and a precondition for improving access to services, economic and social opportunities, and a better quality of life.

18. Climate change, one of the environmental challenges, most negatively affects the world's estimated 1 billion vulnerable slum-dwellers who are neither adequately protected by construction and land use planning regulations, nor do they possess sufficient resources to improve their own lives. The nexus between rapid urbanization and climate change has multiple impacts on highly vulnerable groups, in particular women, young people, the elderly and the extremely poor. Climate change has negative impacts on health, threatens access to water and food security and increases the urban Poor's vulnerability to flooding and landslides. In many developing countries, changes in agricultural productivity as a result of climate change-related weather patterns, as well as conflict over scarce resources, are pushing many rural residents into urban areas. Experience shows that most cities of developing countries lack the capacity to formulate and implement climate change mitigation and adaptation measures, and to build the resilience necessary for effectively responding to climate change-related disasters.

19. In addressing these challenges, UN-Habitat works in close consultation and collaboration with Governments and many Habitat Agenda partners. Tackling urban poverty and social and physical exclusion by promoting and upholding the rights of all, especially women, youth, the disabled and other vulnerable and disadvantaged groups, to an adequate standard of living, including water and sanitation. Lessons from the fourth session of the World Urban Forum, held in 2008, stressed the need to put people at the centre of development and for balanced territorial development as important aspects of sustainable and harmonious urbanization, and that the provision of affordable housing is a strategic means to attaining the Millennium Declaration targets. In responding to the challenges posed by climate change, UN-Habitat has a comparative advantage, through its close and strong relationship with local authorities, to help cities to achieve more compact urban expansion; take stock of their renewable energy and green infrastructure potentials; identify and promote the use of appropriate green technology innovations, especially in the energy, construction and transport sectors; and integrate use of these innovations into planning and building regulations. These interventions, which facilitate mitigation and adaptation to climate change, will also stimulate a green economy that can create dynamic new industries, quality jobs and income growth. Urban planning, land-use management, housing policy and basic infrastructure can significantly influence how cities mitigate and adapt to climate change.

20. Against this backdrop, the UN-Habitat six-year medium-term strategic and institutional plan lays the necessary conditions for concerted international and national efforts to stabilize the growth of slums and for the subsequent reduction in and reversal of the number of slum-dwellers. The plan outlines the five substantive focus areas, namely: (1) effective advocacy, monitoring and partnerships; (2) participatory urban planning, management and governance; (3) pro-poor land and housing; (4) environmentally sound basic infrastructure and affordable services; and (5) strengthened human settlements finance systems. The plan will continue to be implemented at the global and national levels, in line with the approved United Nations reforms, including support for enhanced harmonization, coherence and alignment of international development assistance. Excellence in management, the sixth focus area of the plan, creates an enabling environment for the effective implementation of the five substantive focus areas. In particular, UN-Habitat is strengthening and mainstreaming the results-based management approach in order to enhance the organization's accountability, efficiency and effectiveness.

21. The activities of UN-Habitat for the period 2012–2013 constitute the final phase of the plan, as clearly articulated in the road map for the period 2010–2013. The period 2008–2009 constituted the kick-start phase, while the period 2010–2011 was the roll-out phase. The implementation process will be closely monitored and reported through biannual progress reports for the consideration of Member States. UN-Habitat will strive to achieve regional balance in the implementation of all programme and project activities and also facilitate the exchange of information and good/best practices, especially on a South-South basis.

22. The UN-Habitat programme of work will be implemented through four interlinked subprogrammes, namely: subprogramme 1, Shelter and sustainable human settlements development; subprogramme 2, Monitoring the Habitat Agenda; subprogramme 3, Regional and technical cooperation; and subprogramme 4, Human settlements financing. The subprogrammes work in close cooperation and collaboration through an integrative and synergetic approach that has subprogrammes leading in the implementation of some focus areas but contributing to all of them. This promotes internal cohesion, alignment and coherence, particularly through the enhanced normative and operational framework as reflected in the Habitat country programme documents, to which all subprogrammes contribute to the benefit of Member States. A strengthened programme review mechanism will mainstream results-based management, and reinforce internal cohesion and information sharing among different units in UN-Habitat.

23. With regard to gender integration, the organization's effort in promoting women's access to shelter will continue to be strengthened, in line with the 2005 World Summit Outcome (see resolution 60/1, para. 58) that guarantees women's free and equal right to own and inherit property and ensures security of tenure of property and housing. To address the disparities between men and women in decision-making at all levels and differences in access to land and housing, as well as benefits from programmes implemented, UN-Habitat will assess the gender implications of all planned normative and operational programmes, in line with the UN-Habitat Gender Equality Action Plan. In-house, the Gender Mainstreaming Unit will work with all units, including through the programme review mechanism, to ensure that all interventions adopt a gender perspective.

24. UN-Habitat will also cooperate with Governments, local authorities, international financial institutions, regional development banks, the public-private partnership, Habitat National Committees, academic and research institutions, and many other Habitat Agenda partners. Mechanisms for global advocacy on human settlements issues and cooperation with Governments and Habitat Agenda partners are the World Urban Forum, which is held every two years to address pressing human settlements issues and the World Urban Campaign on sustainable urbanization, which was launched in late 2008. The sixth session of the World Urban Forum will take place in 2012.

25. In implementing the medium-term strategic and institutional plan, UN-Habitat will endeavour to achieve regional balance in the implementation of all programme and project activities, and also to facilitate the exchange of experience, knowledge and best practices between regions, especially South-South. In addition, UN-Habitat will strive for regional balance in the recruitment of staff, consultants and participants in expert group and other meetings.

1. Subprogramme 1: Shelter and sustainable human settlements development

26. This subprogramme will lead in the implementation of focus areas 2 and 3, namely, participatory urban planning, management and governance, and pro-poor land and housing. Work on the global programmes that include secure tenure, housing and property rights, land and property administration, urban environmental management, urban governance, including decentralization, disaster prevention and management and safer cities will continue as outlined in the medium-term strategic and institutional plan. There will be more emphasis on the role of urban planning and governance in promoting safer cities and in mitigating the effects of climate change, all within the framework of sustainable urban development. More effort will be put into strengthening collaboration with local authorities, following the landmark approval of the guidelines on decentralization by the Governing Council of UN-Habitat in April 2007. Work will be undertaken on strengthening education and training in shelter and sustainable urban development within tertiary institutions responsible for training future planners and policy-makers.

2. Subprogramme 2: Monitoring the Habitat Agenda

27. This subprogramme will lead in the implementation of focus area 1, effective advocacy, monitoring and partnerships. Most of the subprogramme's work is cross-cutting and will be implemented in collaboration and cooperation with other divisions. UN-Habitat will continue to monitor and report on global human settlements conditions and trends, and also on progress in the implementation of internationally agreed goals and targets, focusing on sustainable urban development, in line with the medium-term strategic and institutional plan. The organization will also continue to strengthen its strategic partnerships and youth activities, as well as promote and monitor women's empowerment and gender mainstreaming in human settlements. Attention will be given to the role of public-private partnerships in the provision of shelter and related services. There will be increased emphasis on knowledge management, especially transfer and exchange between regions of lessons learned from best practices in human settlements.

3. Subprogramme 3: Regional and technical cooperation

28. Working in all five substantive focus areas, the main thrust of this subprogramme will be to provide technical assistance, build capacity and implement demonstration projects. The Habitat programme managers will contribute to the visibility of human settlements issues and promote their mainstreaming in the United Nations Development Assistance Frameworks, poverty reduction strategies and other national development policy documents. They will continue to play an important role in the United Nations country teams. The Habitat country programme documents developed in close consultation with Governments and other stakeholders will contribute towards coherence in programming at the country level while the regional offices will continue to coordinate activities carried out by all the divisions at regional and country levels, including the expanding work on disaster prevention and management. UN-Habitat work in post-conflict countries has shown how human settlements planning can facilitate stronger links and a smoother transition between relief and

development. The admission of UN-Habitat into the Inter-Agency Standing Committee as a focal point on housing, land and property will facilitate its full participation in the coordinating mechanisms of the inter-agency assessment teams. The organization will be able to offer both transitional and longer-term guidance on shelter issues in post-disaster situations.

4. Subprogramme 4: Human settlements financing

29. This subprogramme leads in the implementation of focus areas 4 and 5 of the medium-term strategic and institutional plan, namely, environmentally sound basic infrastructure, and strengthening human settlements financing. UN-Habitat will work with partners to develop and apply innovative financial mechanisms for mobilizing resources for affordable and pro-poor housing and related environmentally sound infrastructure and services. Implementation of the innovative four-year pilot programme on experimental reimbursable seeding operations for low-income housing and infrastructure, which was started in 2008, will continue. Work on the Water for African and Asian Cities programmes will also continue, with special focus on the Lake Victoria and Mekong regions, in close cooperation with the African Development Bank and the Asian Development Bank. In the area of energy, UN-Habitat will promote sustainable urban transport, especially for the poor, undertake energy efficiency audits of water utility companies and promote slum electrification programmes.

30. The Executive Direction and Management Office will coordinate and oversee the implementation of the whole medium-term strategic and institutional plan, and lead in the implementation of the sixth focus area, excellence in management. The full implementation of this focus area will have a significant impact on the management, institutional effectiveness and corporate culture of UN-Habitat. In particular, strengthening of results-based management, which is a key element of the focus area, will considerably enhance the organization's accountability, efficiency and effectiveness. A strengthened Programme Review Committee will facilitate effective implementation of results-based planning, monitoring and evaluation, promote alignment and cohesion of the programmes, and also ensure that lessons captured from monitoring and evaluation systematically inform the planning and design of new programmes and projects.

B. Cooperating partners

31. The work of UN-Habitat is concentrated in developing countries, countries with economies in transition and countries in need of specialized international assistance for post-conflict and post-disaster recovery and reconstruction. As the focal point for the implementation of the human settlements programme within the United Nations system, UN-Habitat will continue to cooperate with partners within and outside the United Nations to deliver its planned programme of work. In line with the framework of system-wide coherence, UN-Habitat will partner with: the United Nations Development Programme (UNDP), on local governance issues, training, capacity-building and disaster risk reduction; the International Labour Organization (ILO), on the Local Economic Development Programme; the United Nations Institute for Training and Research (UNITAR), on localizing the Millennium Development Goals; the Food and Agriculture Organization of the United Nations (FAO), the International Fund for Agricultural Development (IFAD), the United Nations Environment Programme (UNEP) and the World Bank, on the Global Land Tool Network; the United Nations Office on Drugs and Crime (UNODC) and the United Nations Economic and Social Commission for Asia and the Pacific (ESCAP), on the Safer Cities Programme; the World Health Organization (WHO), the United Nations Children's Fund (UNICEF) and the United Nations Educational, Scientific and Cultural Organization (UNESCO), on the World Water Assessment Programme and the Joint Monitoring Programme for water supply and sanitation; the United Nations Department of Economic and Social Affairs (UNDESA), on various social and economic programmes, including the work of the Commission on Social Development; the Office of the United Nations High Commissioner for Human Rights on the Housing Rights Programme; the United Nations Office for the Coordination of Humanitarian Affairs on post-crisis, reconstruction and rehabilitation; UNEP, on urban environment issues; and the United Nations Framework Convention on Climate Change, on climate change issues; the United Nations Population Fund (UNFPA) and UNDESA on various social and economic programmes, and Millennium Cities; the World Bank, on the Cities Alliance Programme; and the International Finance Cooperation, on urban and housing finance issues. UN-Habitat will also work closely with United Nations country teams on national programmes; and with UNDP, in connection with the work of Habitat programme managers.

32. Outside the United Nations, UN-Habitat will cooperate and collaborate with Governments, local authorities and their associations, multilateral development agencies, regional banks, civil society organizations, the private sector and other Habitat Agenda partners, including research, training and academic institutions. It will continue to work closely with United Cities and Local Governments (UCLG), the United Nations Advisory Committee on Local Authorities (UNACLA) and the Advisory

Group of Experts on Decentralization (AGRED). Collaboration with the following bodies will also be enhanced: Metropolis; Local Governments for Sustainability (formerly the International Council for Local Environmental Initiatives (ICLEI)); CityNet; and the International Association of Francophone Mayors. UN-Habitat will promote sustainable urbanization through regional ministerial conferences that include the Regional Meeting of Ministers and High Level Authorities of Housing and Urbanization in Latin America and the Caribbean, African Ministerial Conference on Housing and Urban Development (AMCHUD) and Asia-Pacific Ministerial Conference on Housing and Urban Development (APMCHUD) (see annex II to the present document).

C. Lessons learned from the fifth session of the World Urban Forum

33. The fifth session of the World Urban Forum, on the theme “The right to the city: bridging the urban divide”, generated vibrant discussions and exchanges of information among a wide range of Habitat Agenda partners. Key lessons that emerged from the discussions, which inform the work programme for the biennium 2012–2013, include the following:

- (a) The nature of the world’s cities today requires a thorough review and analysis of governance institutions and institutional renewal, including changes in behaviour and political relations;
- (b) Urban inequality is not limited to differences in income but includes other important dimensions. Bridging the urban divide requires an integrated approach articulating economic, social, political and cultural forms of inclusiveness;
- (c) The poor have the right to a say in decisions that affect their lives and the right to uplift themselves, in addition to the right to legal assistance in doing so;
- (d) Making our cities more resilient and climate-proof requires better and more rational land-use planning, greener and more robust building codes, and smart infrastructure and services. This can best be achieved by harnessing the full potential of technology to reduce the ecological footprint of our cities while making our public infrastructure and services more accessible and more affordable.

34. Annex V to the present document provides an overview of the Forum, including its genesis and programmatic position in UN-Habitat. It also outlines the main outputs of the Forum included in the work programme and budget for 2012–2013.

D. Financial overview

35. The financial framework of UN-Habitat comprises three sources of funding: United Nations regular budget allocations approved by the General Assembly; United Nations Habitat and Human Settlements Foundation contributions for which the general purpose budget allocations are approved by the Governing Council and special purpose budget allocations are approved by the Executive Director; and technical cooperation contributions for which the budget allocations are also approved by the Executive Director.

36. Regular budget appropriations are approved by the General Assembly and fall into two major categories, namely, section 15: Human settlements, and section 22: Regular programme of technical cooperation, for sectoral advisory services in the field of human settlements.

37. The contributions to the United Nations Habitat and Human Settlements Foundation are of two kinds: general purpose and special purpose. General purpose contributions are non-earmarked voluntary contributions from Governments for which budget allocations are approved by the Governing Council in accordance with agreed priorities to support the implementation of the approved UN-Habitat work programme. Special purpose contributions are earmarked voluntary contributions from Governments and other donors for the implementation of specific activities that are included in the work programme and consistent with the UN-Habitat mandate.

38. Technical cooperation contributions are earmarked voluntary resources from Governments and other donors for the implementation of specific technical country-level activities, consistent with the UN-Habitat mandate and work programme.

39. The consolidated and harmonized 2012–2013 programme budget has been prepared after an analysis of the projected income from the three sources of funding for the biennium 2012–2013, taking into account the resource requirements for the implementation of the proposed biennial work programme.

E. Resource plan

40. The overall resource requirements for UN-Habitat for the biennium 2012–2013 are projected at \$393.2 million, reflecting a 10 per cent increase on the \$357 million estimated for the biennium 2010–2011. The proposed changes are set out in tables 1 (a) and 1 (b).

Table 1 (a)

Note A: Posts funded from earmarked funds (including trust funds) have been excluded from the 2012–2013 staffing tables. These posts are of a temporary nature and the levels subject to frequent changes according to programme and project activity requirements.

Note B: Corresponding programme support accounts (overhead accounts) are included in the Foundation special purpose and technical cooperation resources.

Table 1(b)
Resource requirements by funding category

Subtotal	240 936.6	241 000.0	271 637.6
Total	319 231.2	356 952.9	393 227.3

(a) **Foundation general purpose**

41. The proposed budget for the United Nations Habitat and Human Settlements Foundation to be funded from general purpose contributions for the biennium 2012–2013 is \$70.2 million. This represents a nominal increase of 6 per cent on the previous biennium or a cost change of less than 3 per cent per annum (2.9 and 2.8 per cent respectively) above the \$66.2 million approved for the biennium 2010–2011. In real terms, this represents a zero-growth budget, reflecting the conservative approach adopted in the light of the current global financial situation. As reflected in table 4, \$45 million is allocated for programme activities, \$5.5 million for programme support and \$19.7 million for executive direction and management activities, which includes a special allocation of \$3.9 million to cater for the budgetary implications arising from the review of the organization's structure, whose purpose is to ensure programme alignment and provide a framework for the implementation of the organization's mandates.

(b) **Regular budget**

42. The expenditure budget has been maintained at the same level of \$22.5 million, pending a review of the proposals to be submitted to the General Assembly for approval. Since the United Nations regular budget appropriation is subject to the approval of the General Assembly at its sixty-sixth session, in December 2011, the 2012–2013 amounts are indicative and have been maintained at the level budgeted for the current biennium. Accordingly, no cost adjustments have been applied to this part of the resource plan, as this will be effected at United Nations Headquarters at the time of the adoption of the budget by the General Assembly.

(c) **Foundation special purpose**

43. The estimated budget for the biennium 2012–2013 is \$110.5 million, of which \$97.9 million is for programme activities, \$5.8 million for programme support and \$6.8 million for executive direction and management (see tables 1 and 4). This represents a projected increase of 15 per cent on the \$95.7 million estimated for the biennium 2010–2011. To support the anticipated activities, the staffing level proposed is 30 posts (10 Professional and 20 General Service), all of which are charged to the corresponding programme support account. Temporary field staff will also be recruited to facilitate project implementation and will be charged as direct costs to the respective earmarked projects (including trust funds) as appropriate (see table 6).

44. As reflected in table 2, the United Nations Habitat and Human Settlements Foundation special purpose component incorporates the corresponding programme support budget of \$13 million, of which \$4.7 million is budgeted under programme activities to finance the activities of the Habitat programme managers at the country level (\$2.5 million) and \$2.2 million is allocated for programme

management activities including project appraisal, formulation, monitoring and implementation support, \$5.8 million is for programme support activities of an administrative nature, and the balance of \$2.5 million is allocated for executive direction and management activities, including negotiation of agreements, fund-raising, information management and overall monitoring.

Table 2

Foundation special purpose: programme support (overhead) account

<i>Category</i>	<i>Resources (thousands of United States dollars)</i>			
	<i>Actual 2008–2009</i>	<i>Approved appropriations 2010–2011</i>	<i>Change</i>	<i>Estimates 2012–2013</i>
1. Programme activities	-	-	4 662.7	4 662.7
2. Programme support	5 280.3	8 354.6	(2 516.3)	5 838.3
3. Executive direction and management	-	1 363.1	1 123.9	2 487.0
Total	5 280.3	9 717.7	3 270.3	12 988.0

(d) Technical cooperation

45. The proposed budget for technical cooperation activities is projected at \$190 million for the biennium 2012–2013, representing an increase of 10 per cent above the \$172.6 million estimated for the biennium 2010–2011. This component comprises of the earmarked project budgets (including trust funds) amounting to \$174.1 million and the corresponding technical cooperation programme support (overhead) budget of \$15.9 million. To support the anticipated activities, the projected staffing level against this fund budget is 46 posts (36 Professionals and 10 General Service), all of which will be charged to the technical cooperation programme support account. Temporary field staff will also be recruited to facilitate project implementation and will be charged as direct costs to the respective earmarked projects (including trust funds) as appropriate (see table 6).

Table 3

Technical cooperation: programme support (overhead) account

<i>Category</i>	<i>Resources (thousands of United States dollars)</i>			
	<i>Actual 2008–2009</i>	<i>Approved appropriations 2010–2011</i>	<i>Change</i>	<i>Estimates 2012–2013</i>
1. Programme activities	7 830.3	11 800.1	997.2	12 797.3
2. Programme support	3 117.8	4 361.3	(1 229.2)	3 132.1
3. Executive direction and management	1 114.0	1 432.5	(1 432.5)	-
Total	12 062.1	17 593.9	(1 664.5)	15 929.4

46. As reflected in table 3, the technical cooperation component incorporates the corresponding programme support budget of \$15.9 million; of which \$12.8 million is budgeted under programme activities to finance the related programme management activities, including project appraisal, formulation, monitoring and implementation support, and \$3.1 million is for programme support activities of an administrative nature.

47. UN-Habitat will continue to implement its regional and country-level activities in accordance with the objectives of the enhanced normative and operational framework, as outlined in the medium-term strategic and institutional plan. With the increasing level of activities at the regional and country levels, emphasis will be placed on setting up formal structures and improved mechanisms for collaboration to promote the organization's normative mandate at the country level. The significance of the impending structural review to improve programme alignment, as outlined in paragraph 41, cannot be overemphasized.

48. As a full member of the Inter-Agency Standing Committee (IASC), UN-Habitat chairs the Protection Cluster Working Group's Housing, Land and Property sub-group. UN-Habitat participation is intended to raise the competence level of the nine IASC partners in identifying, assessing and responding to critical housing and land policies, and developing response programmes in urban crises for shelter and land challenges. This has led directly to improved responsiveness and impact on country relief programme design in Haiti, Kyrgyzstan, Pakistan and the Sudan in these critical areas. As chair of the IASC task force on meeting humanitarian challenges in urban areas, UN-Habitat, with its unique comparative technical competence on urban issues, has spearheaded the development of a strategy to enhance post-disaster and crisis or emergency recovery and reconstruction responses with regard to key urban issues such as land tenure and access rights for housing and livelihood reconstruction; urban water and sanitary services; and partnerships with local governments and communities to strengthen resilience and target assistance design and delivery to the most vulnerable.

49. Technical support for relief, recovery and reconstruction programme development has been provided for through the \$88 million and \$155 million mobilized for that purpose in 2009 and 2010 respectively. In addition, the organization has leveraged resources through emergency consolidated appeals, flash appeals and the Central Emergency Relief Fund.

Figure 1
Use of total resources 2012–2013

50. The greater part of the organization's budget – \$347.2 million, or 88 per cent – is reserved for programme activities, while \$14.9 million, or 4 per cent, is budgeted for programme support activities, \$31.1 million, or 8 per cent, is for executive direction and management functions, which includes monitoring and evaluation, office of external relations, Governing Council secretariat, information service section, resource mobilization, and a special allocation of \$3.9 million to be used following the review of the organization structure to improve programme alignment envisaged in the second half the biennium 2010–2011 (table 4 and figure 1).

51. In proposing a special allocation of \$3.9 million, the programme budgetary implications of the review of the organization structure, a key component of the institutional reforms of the medium-term strategic and institutional plan scheduled for 2011, have been factored into the budget. The significance of this review and its implications for strategic human resource planning has been emphasized both by ACABQ and the peer review panel for the medium-term strategic and institutional plan. ACABQ recommended that UN-Habitat should undertake an analysis of its overall organizational structure to identify possibilities for the redeployment of existing senior-level posts to high priority areas to ensure that the overall organizational structure of UN-Habitat is suitable for implementing its mandated activities. The peer review, while acknowledging progress already made, highlighted the need for greater focus on staff composition, competency and commitment at all levels as preconditions for further success in the implementation of the plan.

52. The impending organizational review, whose purpose is to align the organizational structure with the medium-term strategic and institutional plan and ensure that the organization is robust, agile, adaptive and able to deliver its mandate effectively and efficiently within an enhanced normative and operational framework, is expected to affect human resource planning. The special allocation will enable the organization, in consultation with the Committee of Permanent Representatives, to implement the recommendations of this review during the biennium 2012–2013.

53. UN-Habitat continues to align its resources to the six focus areas of the medium-term strategic and institutional plan. Table 5 provides a comparison of the estimated resources for the bienniums 2010–2011 and 2012–2013 required to support the implementation of each of the six focus areas of the plan, according to source of funding. The costs have been further analysed by post and non-post costs for the biennium 2012–2013, as illustrated in figure 2.

54. The significant changes, reflected in table 5, in the allocation of resources by focus area for the bienniums 2010–2011 and 2012–2013, are the net effect of the alignment of all earmarked resources during the biennium 2012–2013. This is in comparison to the biennium 2010–2011, during which \$69.8 million was not aligned to the medium-term strategic and institutional plan. The allocation of resources by focus area is summarized in figure 2.

Figure 2
Allocation of resources by focus area

55. *Foundation general purpose:* The proposed budget amounts to \$70.2 million (see table 7), of which \$39.4 million, or 56 per cent, is allocated to posts, while \$30.8 million, or 44 per cent, is allocated to non-post costs. The proposed increase of \$4 million, or 6 per cent, above the 2010–2011 biennium budget is the net effect of an increase of \$6.2 million in post costs and a decrease of \$2.2 million in non-post costs. The increase in post costs is a combination of a proposed increase of \$2.8 million in post costs within the special allocation for the organization alignment and a further increase of \$3.4 million to cater for inflationary effects. In line with the ACABQ recommendations, frozen posts will be redeployed to the high priority areas following the organization review. The overall decrease of \$2.2 million in the non-post costs can be attributed to the savings arising from operational efficiency gains.

56. UN-Habitat continues to make significant progress in achieving its resource mobilization targets, as demonstrated by the degree to which resource targets for non-earmarked and earmarked funding have been met. Accordingly, 92 per cent and 96 per cent of the annual targets for non-earmarked resources in 2008 and 2009 respectively were achieved. For earmarked contributions, the annual targets were exceeded by 36 per cent in 2008 and by 29 per cent in 2009.

57. Encouraged by the progress made to date in the long-term partnerships with key donors, but mindful of the global financial crisis likely adversely to impact development aid budgets, the organization intends rigorously to pursue the implementation of its resource mobilization strategy to support sustainability and predictability of funding resources, while simultaneously expanding and consolidating the donor base through: improved relations with development partners; use of the World Urban Campaign platform to tap into non-conventional funding sources; better communication with donors, including articulating the products and services of UN-Habitat more clearly; and the development of improved systems, including the provision of what might be termed a “one-stop-shop” for donor information to coordinate resource mobilization efforts.

2012–2013 Total	1	1	5	15	41	48	49	16	176	98	7	281

Note: *Posts funded from earmarked funds (including trust funds) have been excluded from the 2012–2013 staffing tables. These posts are of a temporary nature and the levels subject to frequent changes according to programme and project activity requirements.

58. It should be noted that, as the general purpose contributions to the United Nations Habitat and Human Settlements Foundation are the organization's core funds, they will continue to facilitate the effective implementation of a focused, cohesive and prioritized work programme consistent with the medium-term strategic and institutional plan objectives, primarily by funding normative activities for which earmarked funding is not imminent.

59. Mindful of its funding structure, UN-Habitat strives to strike a favourable balance between its post and non-post costs. For the biennium 2012–2013, the posts to non-posts ratio is 56:44 compared to 50:50 for the biennium 2010–2011, owing primarily to the relatively small decrease in the total budget vis-à-vis the impact of inflation on post costs. It is worth mentioning that with a core staff complement of 281, the organization will continue to manage large field projects and supervise over 2,000 project staff in the field.

60. UN-Habitat is continuously engaged in a rigorous assessment of its activities. It is realigning its posts in line with the priorities and objectives of the medium-term strategic and institutional plan while maintaining a cautious approach in filling established posts subject to availability of funds from donors as recommended by ACABQ in its report (HSP/GC/22/5/Add.1). Furthermore, ACABQ has recommended that UN-Habitat should undertake an analysis of its overall organizational structure to ensure that it is suitable for the implementation of its mandated activities.

61. The changes in the organizational structure already introduced to facilitate the implementation of the medium-term strategic and institutional plan notwithstanding, scope remains for the improved alignment of the current organizational structure as highlighted in the peer review report on the implementation of the medium-term strategic and institutional plan.

62. In view of the above recommendations, it is proposed that the staffing level under the Foundation general purpose budget for the biennium 2012–2013 remain at the same level pending the organization review scheduled for 2011. In line with the recommendations of the medium-term strategic and institutional plan peer review report, the organization alignment review will include the following criteria:

- (a) Careful analysis of the funding structure and competencies needed;
- (b) Determination of the appropriate optimal location for the various units within the organizational structure in the context of the strategic framework;
- (c) Streamlining of the new structure to promote efficiency.

63. Subsequently, priority changes in the staffing level will be made in consultation with the Committee of Permanent Representatives and in accordance with the provisions provided for in the budget for the biennium 2012–2013.

Note: Posts have been realigned for 2012–2013 to ensure alignment of resources with the activities in the work programme and to realize critical and emerging programme priorities and needs.

64. UN-Habitat will continue, with the assistance of Governments, to support the presence at the country level of the 40 Habitat programme managers located within United Nations resident coordinators' offices. They will remain an integral part of the regional offices. Pursuant to Governing Council resolution 21/2 on the medium-term strategic and institutional plan for 2008–2013, Habitat programme managers will remain actively involved in promoting the integration of sustainable urbanization into national development policies; promoting the organization's global and normative mandate, programmes and campaigns; and supporting the operational activities of UN-Habitat at the national and local levels. This will strengthen UN-Habitat engagement with national Governments;

United Nations country teams (as more Habitat programme managers are integrated into these teams); and the United Nations Development Assistance Framework process. To promote policy integration and programmatic coherence at the country level, and in collaboration with the regional offices, they will continue to contribute to the development of Habitat country programme documents and coordinate the establishment of national urban forms with stakeholders at the country level.

65. In accordance with financial rule 304.3.2 (b), upon the recommendation of the Executive Director, the Governing Council determines the level of the general purpose financial reserve from time to time. In view of the expected level of expenditures in the biennium 2010–2011, a further increase in the statutory reserve of \$6,618,100 to \$7,022,150 (equivalent to 10 per cent of the general purpose budget) is recommended. This is to ensure liquidity of the Foundation general purpose fund, to compensate for uneven cash flows and to meet other requirements for the prudent management of the Fund.

I. Policymaking organs

66. By its resolution 56/206, the General Assembly transformed the Commission on Human Settlements into the Governing Council of UN-Habitat, a subsidiary body of the Assembly, with effect from 1 January 2002. The Governing Council reports to the Assembly through the Economic and Social Council and provides overall policy guidance, direction and supervision to UN-Habitat. The Committee of Permanent Representatives to UN-Habitat was also transformed into an intersessional subsidiary body of the Governing Council. The objectives, functions and responsibilities of the Governing Council are set out in General Assembly resolution 32/162 and in paragraph 222 of the Habitat Agenda, which was adopted at Habitat II.

67. The Governing Council is composed of 58 Member States, which have a membership term of four years. It holds its regular sessions biennially at the headquarters of UN-Habitat in Nairobi and reviews the biennial work programme of UN-Habitat, the budget of the United Nations Habitat and Human Settlements Foundation and the operational activities that are carried out by UN-Habitat. The sessions bring together representatives of Member States, and Habitat Agenda partners, the latter comprising local authorities, non-governmental organizations, the private sector, the Global Parliamentarians on Habitat, women's groups, Youth for Habitat, trade unions, professionals and researchers, foundations and academics of science. The Committee of Permanent Representatives normally meets eight times during a biennium, while its four working groups hold approximately 72 meetings during the same period. The Bureau of the Governing Council and the Bureau of the Committee of Permanent Representatives and the Committee's four working groups are serviced by the Secretariat of the Governing Council.

68. Among the responsibilities of the Secretariat of the Governing Council is the servicing of the World Urban Forum. The Forum is a non-legislative technical forum convened by the Executive Director, in which experts, including representatives of Governments, local authorities, the private sector, non-governmental organizations, community-based organizations (cultural, women's and youth groups), media organizations, academics and researchers, meet to exchange views in the years in which the Governing Council of UN-Habitat does not meet. Its purpose is to facilitate discussion and provide opportunities for sharing lessons learned, best practices and good policies related to shelter and sustainable urbanization. It is an advocacy platform and its outcomes are submitted by an advisory group established by the Executive Director during each session of the World Urban Forum to advise the Executive Director, who in turn shares the outcomes with the Governing Council. New substantive information emerging from the proceedings of the Forum enriches the knowledge base of UN-Habitat and informs subsequent work programmes.

Resource requirements (\$59,600)

69. The estimated resource requirements by source of funding for this area are set out in table 8.

Table 8

Resource requirements by source of funds

Total	59.6	-	59.6	-	-

70. The provision of \$59,600 against the regular budget covers overtime and hospitality requirements for substantive servicing of meetings of the Governing Council and its subsidiary organs. The resource requirements have been maintained at the same level pending a review of the proposals to be submitted to the General Assembly for approval as part of the programme budget for 2012–2013.

II. Executive direction and management

A. Overall objective

71. To ensure effective implementation of the UN-Habitat mandates and compliance with United Nations policies and procedures in the implementation of the work programme and budget and the medium-term strategic and institutional plan, and in the management of human and financial resources.

B. Alignment of the work programme for executive direction and management to the medium-term strategic and institutional plan

72. Executive direction and management is responsible for overseeing implementation of the medium-term strategic and institutional plan and leads the implementation of the Plan's focus area 6, to which the Programme Support Division also contributes. Of the seven expected accomplishments of focus area 6, three and their indicators of achievement are derived from the medium-term strategic and institutional plan results framework. The other four expected accomplishments and corresponding indicators of achievement are provided by the Office of the Comptroller and are mandatory.

C. Strategy

73. Executive direction and management comprises the offices of the Executive Director, and the Deputy Executive Director, the Monitoring and Evaluation Unit, the liaison offices and the Office of External Relations. UN-Habitat has liaison offices in New York, Geneva, Brussels and Washington, D.C. The Executive Director provides overall direction and leadership in the formulation and implementation of the organization's biennial work programme and budget, and in relations with Member States, United Nations offices, programmes, funds, agencies and other partners, in coordinating the implementation of the Habitat Agenda, relevant Millennium Declaration targets, the medium-term strategic and institutional plan and decisions of intergovernmental bodies.

74. During the biennium, the Office of Executive Direction and Management will coordinate, drive, monitor and assess the implementation of activities outlined in the biennial work programme and budget. The Executive Direction and Management will continue to lead and drive implementation of focus area 6, excellence in management of the medium-term strategic and institutional plan. It will consolidate a series of strategic and institutional changes focusing on programmatic alignment and coherence.

75. The Office of External Relations will oversee the functions of the Information Services Section, the Resource Mobilization Unit and the Governing Council (the responsibilities and programme of work of the Governing Council are reflected under policymaking organs). The Resource Mobilization Unit will implement the UN-Habitat resource mobilization policy, in line with the priorities identified in the medium-term strategic and institutional plan, and support the development and implementation of multi-year funding agreements. It will also enhance the catalytic

role of UN-Habitat together with its ability to respond to critical environmental and humanitarian emergencies. To this end, the Unit will engage with Member States and partners on funding needs and expand partnerships and alliances between UN-Habitat and international and regional institutions to increase funding and investments for human settlements development.

76. The Information Services Section will promote and support UN-Habitat advocacy activities by providing press and media services, marketing and outreach through social media and the planning and organization of major global, regional and national media and advocacy events, including World Habitat Day, the World Urban Forum and the World Urban Campaign, to enhance awareness on sustainable urbanization issues. Targeted marketing of UN-Habitat publications, events and new products will be undertaken using a new marketing strategy to strengthen partnerships. New knowledge management systems, including a global urban portal and enterprise content management, will be developed to support archives and records management. Intranet-based tools and the agency's information, communication technology (ICT) infrastructure will be strengthened further to enhance staff collaboration and effectiveness.

77. The Monitoring and Evaluation Unit is responsible for improving monitoring and evaluation systems and coordinating UN-Habitat monitoring and evaluation activities. It coordinates monitoring and reporting on the implementation of the biennial work programme and budget and the medium-term strategic and institutional plan, and supports evaluation activities in UN-Habitat. The Integrated Monitoring and Documentation Information System will be used for monitoring and reporting progress on implementation of the biennial work programme and budget. The Unit will coordinate, support and provide guidance to internal, independent and strategic evaluations and follow-up on the implementation of recommendations, including those of the Office of Internal Oversight Services. Evaluations will assess the relevance, efficiency and effectiveness of programme implementation, as well as the extent to which UN-Habitat is achieving planned results. The Unit will ensure that evaluation findings are used to improve programme performance, accountability, planning and organizational learning, and that relevant tools and guidelines are in place to support staff in monitoring and evaluation. In addition, the Unit will provide training to develop the staff capacity required to carry out self evaluations and facilitate external evaluations.

78. The UN-Habitat liaison offices in New York, Geneva, Brussels and Washington, D.C., will perform their functions of coordinating, harmonizing and representing the Programme. The offices will participate in the work of the General Assembly, the Economic and Social Council and other intergovernmental bodies, and in interdepartmental and inter-agency meetings to provide substantive support in meetings and policy dialogues on human settlements, and will also carry out advocacy and outreach activities, including on post-crisis reconstruction and rehabilitation.

79. The World Urban Campaign will continue to serve as an important vehicle for advocacy, outreach and awareness-raising. By mobilizing Habitat Agenda partners within a campaign platform it will promote opportunities for learning, sharing experiences and enhancing innovation through a guided process of knowledge management, best practices and benchmarking. It will generate more effective activities and partnerships as a result of a better match between supply and demand in support of more sustainable urban development. Some of the Campaign's initiatives will serve as key operational anchors on the ground with the potential to mobilize stakeholders at the lowest level and to interact with leaders, actors, enablers, innovators and other stakeholders in sustainability reform processes.

80. The standing regional ministerial conferences will provide a mechanism for interaction with policymakers and government experts beyond the statutory bodies of the Governing Council. They will provide a means for engagement at the highest level of decision-making and serve as platforms for exchanging experiences, validating of strategic options, and also facilitating the identification of entry points on the ground. The conferences can serve as forums for preparatory meetings prior to statutory meetings and for consultative meetings for high-level government policymakers. Follow-up activities to meetings of the conferences will augment the programmatic work of UN-Habitat.

81. UN-Habitat will endeavour to achieve regional balance in the implementation of all programme activities, and also to facilitate the exchange of experiences, knowledge and best practices between regions, especially South-South. In addition, UN-Habitat will strive for regional balance in the recruitment of staff, consultants and participation in expert group and other meetings.

D. External factors

82. The Office of Executive Direction and Management is expected to achieve its objectives and expected accomplishments on the assumption that:

(a) Member States continue to effectively support UN-Habitat with necessary resources, and supportive institutional and policy frameworks;

(b) Governments and other Habitat Agenda partners continue to prioritize human settlement issues;

(c) Suitably qualified female candidates and candidates from unrepresented and underrepresented countries will apply for posts.

E. Results chain

83. Table I presents a chain of results linking expected accomplishments, sub-expected accomplishments and outputs that contribute to the realization of the UN-Habitat objective for executive direction and management. Expected accomplishments are the higher level results to which significant contribution will be made over a longer period of time, usually of at least five years. Sub-expected accomplishments are intermediate level results which UN-Habitat and its partners can reasonably expect to achieve in a biennium through the delivery of outputs. Outputs are the products and services over which UN-Habitat has control in their delivery and are a result of the organization's inputs and activities. The higher the results, the less control UN-Habitat and other partners have. In results-based management, it is assumed that if planned outputs are delivered effectively, sub-expected accomplishments will be achieved and the potential of realizing the planned expected accomplishments is significantly higher. Indicators of achievement are pegged to, and measure progress made towards, contribution to and/or achievement of expected accomplishments. To facilitate progressive assessment of development changes occurring as a result of UN-Habitat and partner interventions, all performance measures are presented cumulatively.

Table I
Executive direction and management

<i>Expected accomplishment</i>	<i>Sub-expected accomplishment</i>	<i>Outputs</i>
<p>Expected accomplishment (a). Enhanced policy coherence in the management of human settlements activities of the United Nations system</p> <p>Indicator of achievement (i) Increased number of United Nations system-wide policy documents and reports integrating human settlements issues in a consistent manner, including relevant General Assembly and Economic and Social Council resolutions</p> <p>Performance measures: Baseline 2009: 35 policy documents/reports Estimate 2011: 35 policy documents/reports Target 2013: 40 policy documents/reports</p>	<p>(a).1 Human settlements issues reflected effectively in international and intergovernmental meetings and conferences [1]²</p> <p>(a).2 Increased awareness and involvement of Habitat Agenda partners in advocacy and formulation of policy [1]</p>	<p><i>Substantive servicing of meetings</i> (a) Twenty-fourth session of the Governing Council of UN-Habitat. ²

- Sub-expected accomplishment prioritization:
Priority [1]: Sub-expected accomplishments mandated by the Economic and Social Council, General Assembly and the Governing Council;
Priority [2]: Sub-expected accomplishments with strategic importance (i.e., addressing a global trend or challenge of increasing importance); and with a high potential for contributing to expected accomplishments;
Priority [3]: Sub-expected accomplishments with lower strategic importance or with lower potential for contributing to expected results.
- Numbers in square brackets [] after the sub-expected accomplishments indicate the level of prioritization.
- The numbers in round brackets () after outputs denote the quantity of outputs to be produced.
- Letters **A, C, E, F, R, S** in brackets refer to language of publications as follows: **A**- Arabic, **C**- Chinese, **E**- English, **F**- French, **R**- Russian, **S**- Spanish.

Note: Posts have been realigned for 2012–2013 to ensure alignment of resources with the activities in the work programme and to realize critical and emerging programme priorities and needs.

84. The proposed budget for executive direction and management functions is estimated at \$31 million, as detailed in tables 9 (a) and 9 (b), comprising \$19.7 million from the Foundation general purpose, \$4.5 million from the regular budget and \$6.8 million from the Foundation special purpose. The component includes the Executive Office, the Office of External Relations, the Monitoring and Evaluation Unit and liaison offices.

1. Foundation general purpose

85. The amount of \$13.1 million provides for the continuation of 31 posts and the inward redeployment of five posts in line with the ACABQ recommendations to review current structures to ensure alignment of resources with the activities in the work programme and realign posts to realize critical or emerging programme priorities and needs, and a special allocation for the organization alignment. The sum of \$6.6 million provides for non-post costs required to support the activities outlined in this section comprising costs associated with consultants, staff travel, contractual services, including implementation through partners, general operating expenses, supplies and materials, furniture and equipment and reimbursement for services provided by the United Nations Office at Nairobi.

86. The composition of posts is as follows: nine (one ASG, two D-1, one P-5, one P-4, two P-3, two Local Level) in the Executive Office; one (D-2) in the Office of External Relations; four (one P-5, one P-3, two Local Level) in the secretariat of the Governing Council; three (one P-5, one P-4 and one Local Level) in the Resource Mobilization Unit; eight (two P-4, three P-3, three Local Level) in the Information Services Section; three (one P-4, one P-3, one Local Level) in the Monitoring and Evaluation Unit; eight in the liaison offices; three (one P-4, one P-3, one Other Level) in the New York office; four (one D-1, one P-5, two Other Level) in the Geneva office; one (Other Level) in the Brussels office. These include five posts which have been realigned as follows:

- (a) Senior Human Settlements Officer (land specialist) (one P-5) from the shelter and sustainable human settlements development subprogramme to the Geneva office;
- (b) Human Settlements Officer (one P-4) from the regional and technical cooperation subprogramme to the New York office;
- (c) Human Settlements Officer (one P-3) from the monitoring the Habitat Agenda subprogramme to the New York office;
- (d) Two Administrative Assistants (two Other Level) from the shelter and sustainable human settlements development subprogramme to the Geneva and Brussels offices, respectively.

2. Regular budget

87. The amount of \$4.5 million provides for the continuation of 14 posts: \$3.9 million providing for three posts (one USG and two Local Level) in the Executive Office; six in the Office of External Relations, of which four (one D-1, one P-3, two Local Level) in the secretariat of the Governing Council and two (one P-5 and one P-3) in the Information Services Section; one (P-5) in the Monitoring and Evaluation Unit; and four (one D-1, one P-5 and two Other Level) in the New York office; and an allocation of \$612,400 for non-post costs to cover other staff costs, travel, contractual services, general operating expenses, supplies and materials and furniture and equipment. Resource requirements have been maintained at the same level pending a review of the proposals to be submitted to the General Assembly for approval as part of programme budget for 2012–2013.

Note: Posts have been realigned for 2012–2013 to ensure alignment of resources with the activities in the work programme and to realize critical and emerging programme priorities and needs.

3. Foundation special purpose

88. The amount of \$2.1 million provides for nine posts that have been realigned from the Programme Support Division, of which two have moved to the Executive Office and seven to the Information Services Section, consolidating information services activities, and an allocation for general temporary assistance, while the reduced allocation of \$4.7 million relates to the projected earmarked project budget to support activities outlined above in keeping with historical trends and the requirements of this office.

4. Technical cooperation

89. The reduction of \$1.4 million is attributed to the realigned distribution of expenditure for reimbursement of services provided by the United Nations Office at Nairobi to the Regional and Technical Cooperation subprogramme where the corresponding activities supported by this allocation are reflected.

III. Programme of work

A. Subprogramme 1: Shelter and sustainable human settlements development

1. Objective

90. The overall objective is to improve the shelter conditions of the world's poor and to ensure sustainable human settlements development in an urbanizing world, through the promotion of participatory urban planning, management, governance, pro-poor land and housing.

2. Alignment of work programme for subprogramme 1 to the medium-term strategic and institutional plan

91. This subprogramme leads the implementation of the plan's focus areas 2 and 3 but contributes to all the other focus areas, working in collaboration with different organizational units in all the divisions. The objective of the subprogramme was adapted from the strategic results of the two focus areas, while the expected accomplishments, indicators of achievement, sub-expected accomplishments and strategy sections were derived from the plan's focus area results framework. The programme of work for this subprogramme was informed by the strategy papers for focus areas 2 and 3. The medium-term strategic and institutional plan identified the enhanced normative and operational framework as a new approach to provide better support at the country level in order to achieve greater impact. The expected accomplishments in the focus areas were combined to reduce the number in the work programme, while some of the indicators were changed to make them qualitative.

3. Strategy

92. Responsibility for the subprogramme is vested in the Shelter and Sustainable Human Settlements Development Division. Based on its comparative advantage and in line with the plan, the subprogramme will take the lead on the implementation of focus area 2, promotion of participatory urban planning, management and governance, and focus area 3, promotion of pro-poor land and housing, and will also contribute to the other three focus areas, since they are all cross-cutting. This strategy, which is heavily informed by evidence-based best practices and lessons learned from experience, will make a substantive and progressive contribution towards the achievement of the Millennium Declaration and Johannesburg Plan of Implementation targets on slums and water and sanitation. The strategy for implementing the programme of work is as follows:

(a) With respect to the objective of improving inclusive urban planning, management and governance at the national and local levels, during the biennium, UN-Habitat will use three programmatic entry points (thematic challenges) to contribute towards the expected systemic results. These are: developing local capacities to mitigate and adapt to climate change; enhancing urban safety and the reduction of vulnerability to crime and natural and human-made hazards; and, promoting economic development. All the entry points will be operationalized within the framework of decentralization as broadly provided for by the Guidelines on Decentralization and the Strengthening of Local Authorities and other key UN-Habitat documents;

(b) For achieving the objective relating to improved access to land and housing, the subprogramme will initiate systematic reforms to promote access to land and housing for all. The organization's approach to realizing access to land and housing for all will rely on three cross-cutting strategies, namely, knowledge management and advocacy; capacity-building at the global and regional levels; and, supporting implementation at the country or local level. Throughout this approach, issues of gender, as well as youth and other vulnerable and disadvantaged groups, will be mainstreamed. These strategies will be implemented in parallel and not in a linear approach. Knowledge and lessons learned, for example, will be reaped from existing successes and could thus be used in advocacy campaigns and capacity-building through the enhanced normative and operational framework. On the other hand, where tools do not exist, they will be developed, tested at the country level and then advocated for, translated into policy and used in capacity-building;

(c) Capacity-building will be undertaken at the global, national and local levels to promote sustainable urban development and to undertake effective planning, management and delivery of shelter, land, infrastructure and services. These will be supported by dedicated strategies and programmes, including human resources, tool development, resource development, organizational development and institutional strengthening components;

(d) Engaging with crisis-affected countries (both conflict-related and natural disasters) is an important component of the human settlements programme. This work includes building the resilience of countries; assisting countries and cities to mitigate and adapt to crises, as well as work with settlements to recover from crisis. The engagement of UN-Habitat in crisis work is derived from the agency's Strategic Policy on Human Settlements in Crisis and Sustainable Relief and Reconstruction Framework, which articulates pertinent aspects of the Habitat Agenda and the medium-term strategic and institutional plan in both crisis prevention and recovery;

(e) UN-Habitat will assume a catalytic role in implementing focus areas 2 and 3 by reinforcing existing partnerships, and establishing new strategic ones with United Nations system agencies, non-governmental organizations, educational establishments, scientific institutions and financial bodies that have the collective resources, infrastructure, expertise and the financial power to work with it;

(f) All interventions in the subprogramme will be implemented in line with the Gender Equality Action Plan and also taking into account the needs and involvement of youths. To enhance gender-sensitive interventions and policies, the programme will, as appropriate, conduct gender analysis on all projects in order to identify gender gaps and determine policies, as well as strategies for addressing them. Further, to enhance gender balance in programme participation and equitable access to programme benefits, as much as possible, all programme data will be disaggregated by gender. The programme will make efforts to create conditions that support women, and to ensure that programme interventions promote activities that increase women's empowerment and participation.

4. External factors

93. The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that:

(a) Risks associated with changes in government and related policies which could slow down the progress of initiatives on land and housing will be minimal;

(b) Member States respond positively to the guidelines and recommendations provided and ensure that the intended beneficiaries have sustained resources and supportive legal, institutional and policy frameworks to implement the policies and strategies initiated through UN-Habitat activities.

5. Results chain

94. Table II presents a chain of results linking expected accomplishments, indicators of achievement and their performance measures, sub-expected accomplishments and outputs that will ultimately contribute to the realization of the objective for subprogramme 1.

ADVANCE

Table II
Subprogramme 1: Shelter and sustainable human settlements development

<i>Expected accomplishments</i>	<i>Sub-expected accomplishments</i>	<i>Outputs</i>
<p>Expected accomplishment (a) Improved policies, legislation and strategies support inclusive urban planning, management and governance [MTSIP focus area 2]</p> <p>Indicator of achievement (i) Extent to which sustainable urbanization principles are incorporated into policies, legislation and strategies in targeted countries with assistance from UN-Habitat, as evidenced by the number of countries that have partially or extensively incorporated principles of equity, economy and ecology, into policies legislation and strategies in an integrated way.³</p> <p>Performance measures Baseline 2009: 19 countries extensively, and 21 partially incorporate principles of equity, economy and ecology into policies, legislation and strategies for urban planning, management and governance Estimate 2011: 22 countries extensively, 22 partially incorporate principles of equity, economy and ecology, into policies legislation and strategies for urban planning, management and governance Target 2013: 28 countries extensively, 28 partially</p>	<p>(a).1 Improved policy analysis [3]⁴</p>	<p><i>Expert group meetings</i> (a) Meeting on governance policies related to local and national responses to cities in climate change (1)</p> <p><i>Non-recurrent publications</i> (a) Publication on the inclusion of urban safety and social cohesion in national public security policies (E, S) (4) (b) Publication on impact assessment and case studies on decentralization (E) (1) (c) Report on study of correlation between governance and sustainability in select cities (E) (1) (d) Publication on urban planning policies to include multidimensional risk analysis for prevention and preparedness to natural and human-caused disasters (E) (3)</p> <p><i>Advisory services</i> (a) Advisory services on the review of urban planning policies at national level in selected countries (1) (b) Advisory services on the review of urban policies from a climate change perspective (4)</p>

³ In addition to the number of countries involved, the indicator measures steps being taken at the national level to promote inclusive urban planning, management and governance, including the establishment of rules, procedures, forums and monitoring systems, and the development of empowerment and enabling processes, all of which contribute towards inclusive engagement. "Ecology" refers to the integration of environmental and climate change concerns in urban planning, management and governance processes; the optimization of materials, waste flows and energy in urban settlements and the protection of urban biodiversity. "Equity" refers to the increase in opportunities, access, ownership and rights of all social groups, and particularly those that are marginalized in the areas of land, housing, services and means of livelihood, decision-making, implementation and follow-up. "Economics" refers to the way in which public and private business is transacted and to practices that increase the value of each investment and expand economic opportunities.

⁴

- (i). Sub-expected accomplishment prioritization:
 - Priority [1]:** Sub-expected accomplishments mandated by the Economic and Social Council, General Assembly and the Governing Council;
 - Priority [2]:** Sub-expected accomplishments with strategic importance (i.e., addressing a global trend or challenge of increasing importance); and with a high potential for contributing to expected accomplishments;
 - Priority [3]:** Sub-expected accomplishments with lower strategic importance; or with lower potential for contributing to expected results.
- (ii). Numbers in square brackets [] after the sub-expected accomplishments indicate the level of prioritization.
- (iii). The numbers in round brackets () after outputs denote the quantity of outputs to be produced.
- (iv). Letters **A, C, E, F, R, S** in brackets refer to language of publications as follows: **A**- Arabic, **C**- Chinese, **E**- English, **F**- French, **R**- Russian, **S**- Spanish.

<i>Expected accomplishments</i>	<i>Sub-expected accomplishments</i>	<i>Outputs</i>
incorporate principles of equity, economy and ecology, into policies legislation and strategies for urban planning, management and governance		
Indicator of achievement (ii) Increased number of crisis-prone and post-crisis countries working with UN-Habitat, whose urban planning, management and governance policies, legislation and strategies incorporate urban risk and vulnerability-reduction measures Performance measures Baseline 2009: 30 countries Estimate 2011: 32 countries Target 2013: 34 countries	(a). 2 Policy advocacy improved, including through the World Urban Campaign [2]	<p><i>Special events</i></p> <ul style="list-style-type: none"> (a) WUF6 dialogue related to urban environment and planning (1) and dialogue on governance-related topic with associated supplementary debates (1) (b) UNACLA dialogues on local governments, including associated supplementary debates, during WUF6 and twenty-fourth session of the Governing Council (GC24) (2) (c) Sustainable Urban Development Network (SUD-Net): WUF6 dialogue on city management with associated supplementary exhibition (1) (d) World Urban Campaign steering committee meeting at WUF (1); partners round-table meeting at WUF (1); partners dialogue at GC24 (1) <p><i>Expert group meetings</i></p> <ul style="list-style-type: none"> (a) International urban safety and social cohesion conference (1) (b) Regional conference of mayors on urban safety (1) (c) World Urban Campaign core components: (i) good policies and enabling legislation; (ii) tools and methods; (iii) living practices (6) <p><i>Non-recurrent publications</i></p> <ul style="list-style-type: none"> (a) World Urban Campaign partners annual report.(1) <p><i>Assistance to representatives and rapporteurs</i></p> <ul style="list-style-type: none"> (a) Backstopping and rapporteur assistance to AMCHUD and APMCHUD (2) <p><i>Booklets, pamphlets and fact sheets</i></p> <ul style="list-style-type: none"> (a) Booklets and articles on the assessment of capacity to deliver urban disaster risk reduction and preparedness programmes through participation in the International Strategy for Disaster Reduction (ISDR) campaign “Making Cities Resilient” (E) (1) (b) Fact sheet on promoting the urban dimension of sustainable development for the United Nations Conference on Sustainable Development (Rio+20) (1) (c) World Urban Campaign brochures, partners’ booklets, posters and pamphlets in the six official languages of the United Nations (1) (d) World Urban Campaign video presentation, web platform and podcasts (1) <p><i>Technical assistance</i></p> <ul style="list-style-type: none"> (a) Backstopping for World Urban Campaign on policy development, capacity-building, and pre-investment resources and providing advisory services in country activities interventions on housing, infrastructure, and financing (3) <p><i>Training courses, seminars and workshops</i></p> <ul style="list-style-type: none"> (a) Workshops on promoting local or national dialogues for climate change mitigation and adaptation(4)

<p>Expected accomplishment</p> <p>(b) Strengthened institutions promote sustainable urbanization</p> <p>[MTSIP focus area 2]</p> <p>Indicator of achievement</p> <p>(i) Degree to which strengthened institutions working with UN-Habitat actively apply tools and knowledge in support of sustainable urban development, as evidenced by the number of strengthened institutions that are either fully or partially applying newly acquired tools and knowledge⁵</p> <p>Performance measures</p> <p>Baseline 2009: 10 institutions fully applying newly acquired knowledge in promoting sustainable urbanization.</p> <p>Estimate 2011: 20 institutions fully applying newly acquired knowledge in promoting sustainable urbanization.</p> <p>Target 2013: 30 institutions fully applying newly acquired knowledge in promoting sustainable urbanization</p>	<p>(b). 1 Strengthened organization structures and processes for urban planning, management and governance [2]</p>	<p><i>Expert group meeting, rapporteurs, depository services</i></p> <ul style="list-style-type: none"> (a) Expert group meeting on organizational capacity-building for local government training providers in the field of climate change and urban environment (1) (b) Global seminar on strengthening urban programmes of tertiary education institutions (1) <p><i>Technical materials</i></p> <ul style="list-style-type: none"> (a) Guidelines for multi-level governance reform to address the challenge of climate change (1) (b) Capacity-building methodology for local government training institutes (1) (c) Training and capacity-building e-newsletter produced for increased advocacy on issues of climate change, urban economic development and urban safety (4) (d) Curricula for disaster management programmes including sustainable relief and reconstruction framework at national, regional and global levels (1) (e) Online resources and training modules for disaster management for practitioners, Habitat programme managers, UN-Habitat staff on sustainable relief and reconstruction framework (1) (f) Tools on cities and biodiversity (2) (g) Note on strengthening education, research, knowledge management and partnerships for Habitat partner universities (E) (1) <p><i>Non-recurrent publications</i></p> <ul style="list-style-type: none"> (a) Study on “Localizing Hyogo framework for action: lessons from selected cities” (E) (1) <p><i>Advisory services</i></p> <ul style="list-style-type: none"> (a) Advisory services to strengthen local government training institutes at national and regional levels to deliver leadership development programmes targeting city leaders. (5)

⁵ The indicator not only provides the number of institutions in targeted countries that actively lead in capacity-building in various ways, but also enables the provision of information on ways in which institutions that are strengthened contribute at the national level through the formulation of national capacity-building strategies, training needs assessments, innovations in and adaptation of training tools, capacity-building design and delivery, among others. The indicator looks at demand for the services of these strengthened institutions together with their level of engagement. This information cannot be adequately captured in one performance measure as there are many possible variables addressed by the indicator.

<i>Expected accomplishments</i>	<i>Sub-expected accomplishments</i>	<i>Outputs</i>

Indicator of achievement (i) Increased number of cities effectively implementing inclusive urban planning, management and governance with assistance from UN-Habitat		
Performance measures Baseline 2009: 112 cities implementing different aspects of inclusive urban planning, management and governance Estimate 2011: 139 cities implementing different aspects of inclusive urban planning, management and governance Target 2013: 209 cities implementing different aspects of inclusive urban planning, management and governance		
	(c). 2 Enhanced strategic partnerships for urban planning, management and governance [2]	<i>Expert group meetings</i> (a) Expert group meeting in preparation for Habitat III (1) (b) AGRED expert group meeting (1) (c) UNACLA expert group meeting and interface symposium of United Nations agencies and local authorities (1) <i>Advisory services</i> (a) Implementation plan for the 2008–2013 strategic framework of collaboration between UNEP and UN-Habitat (1) (b) Advisory services on global network for safer cities (E, S, F) (1) (c) Advisory services to promote urban responses to climate change and biodiversity, within the framework of collaboration with United Nations Framework Convention on Climate Change and United Nations Convention on Biological Diversity (4)

<i>Expected accomplishments</i>	<i>Sub-expected accomplishments</i>	<i>Outputs</i>
		(d) Extended joint work programme between World Bank, UNEP and UN-Habitat on cities and climate change in four countries (1) (e) Advisory services to key partners (i.e., urban planning associations and residents' associations) on strengthening uptake of sustainable urban planning principles and tools (E) (4)
	(c). 3 Improved management of financial resources for urban planning, management and governance [2]	<i>Training courses, seminars and workshops</i> (a) Transcontinental participatory budgeting workshops for 60 participants (3) (b) Workshop on innovative mobilization of municipal financing for 30 partners and participants from municipalities (1) <i>Field projects</i> (a) Projects that support cities to access Global Environment Facility and Adaptation Fund financing (2) (b) Project to study the impact of crime and violence on finances for sustainable urbanization (1)
	(c). 4 Improved capacity to apply urban planning, management and governance (UPMG), including in the context of crisis-prone and post-crisis human settlements [1]	<i>Expert group meeting</i> (a) Expert group meeting on urban planning for human settlements in the context of crisis (1) (b) Expert group meetings on safety and urban planning, policing and public spaces; safety in post-disaster recovery situations; urban safety and human security, urban vulnerability to organized crime, corruption, armed violence (7) (c) Meeting on capacity-building for undertaking common urban risk assessments (1) <i>Technical materials</i> (a) Guidance note for urban planning for human settlements in the context of crisis (in collaboration with RTCD, GD, HSFD) (1) (b) Sustainable relief and reconstruction manual (1) (c) Post-conflict and disaster national land studies (2) (d) Tools for urban risk identification and mapping (1) (e) Post-conflict and disaster shelter studies (2) (f) Manual of best practices in managing and maintaining municipal infrastructure and services (1) <i>Advisory services</i> (a) Advisory services on urban planning for human settlements in four Member States in crisis (in collaboration with RTCD, GD, HSFD) (4) (b) Advisory services to 20 countries on governance-related tools (20) <i>Training courses, seminars and workshops</i> (a) Training for 25 participants on urban planning for human settlements in the context of crisis (in collaboration with RTCD, GD, HSFD) (3) (b) Research symposium for academia, researchers, local governments and private sector (2) (c) Capacity-building on urban preparedness for cities improved emergency response (2) (d) Workshop on climate change adaptation for cities in crisis (2)

<i>Expected accomplishments</i>	<i>Sub-expected accomplishments</i>	<i>Outputs</i>
		<p><i>Field projects</i></p> <p>(a) Disaster management programme in post-crisis areas (response) in at least three cities for preparedness, prevention and monitoring of vulnerabilities (i.e., cross-cutting) (3)</p> <p>(b) Project to support the operationalization of UN-Habitat platform on urban resilience (1)</p> <p>(c) Field projects with regional offices supporting urban safety, social cohesion and human security at the local and national levels in Latin America and the Caribbean, Asia, Africa and Eastern Europe (4)</p>
	(c). 5 Improved capacity of cities and city regions to apply strategic planning and sustainable urban mobility approaches [1].	<p><i>Expert group meeting</i></p> <p>(a) Expert group meeting to explore innovative governance arrangements to promote urban patterns for sustainable urban development (1)</p> <p><i>Technical materials</i></p> <p>(a) Compendium of case studies on cities and city regions applying innovations in strategic planning and urban mobility (1)</p> <p>(b) Guidelines to promote patterns for sustainable urban development (1)</p> <p><i>Advisory services</i></p> <p>(a) Advisory services to Member States and local governments on strategic planning and sustainable urban mobility (2)</p> <p><i>Training courses, seminars and workshops</i></p> <p>(a) Technical exchange visits between cities and city regions for sharing of experience and lessons learned on strategic planning and urban mobility approaches (6)</p> <p>(b) Regional training on applying innovations in strategic planning and urban mobility (3)</p>
Expected accomplishment	(d).1 Government and Habitat Agenda partners' knowledge of innovative land and housing policies and programmes improved [2]	<p><i>Expert group meetings</i></p> <p>(a) Meeting on pro-poor and gender-sensitive land policies and tenure, land management and property administration including women's equal tenure (in collaboration with the Shelter Branch (SB)) (1)</p> <p>(b) Global housing sector strategy (in collaboration with SB, RTCD) (1)</p> <p><i>Non-recurrent publications</i></p> <p>(a) Study on innovative, pro-poor and gender-sensitive land policies and land tenure (E) (1)</p> <p>(b) Housing sector profile (S) (1)</p> <p><i>Booklets, pamphlets and fact sheets</i></p> <p>(a) Booklets, pamphlets, fact sheets and other advocacy and information materials produced on innovative land policies, tenure and management issues (in collaboration with SB) (A, E) (2)</p>
(d) Improved land and housing policies implemented and increased security of tenure [MTSIP focus area 3]		
Indicator of achievement		
(i) Extent to which targeted countries working with UN-Habitat are implementing land, housing and property policies as evidenced by the number of countries at different stages of implementing the above-mentioned policies ⁶		

⁶ In addition to providing information on the number of countries being supported by UN-Habitat to effect change in land and housing policies, this indicator also requests information on the different stages in that regard. Stages include: advocacy, policy debates, normative tool development, institutional capacity-building and training, policy adoption,

<i>Expected accomplishments</i>	<i>Sub-expected accomplishments</i>	<i>Outputs</i>
Performance measures		
Baseline 2009: 28 countries at different stages of implementing land, housing and property policies, including 2 that have completed implementation		<i>Training courses, seminars and workshops</i>
Estimate 2011: 30 countries at different stages of implementing land housing and property policies, including 4 that have completed implementation		(a) Regional workshop on enabling the housing sector to work (1)
Target 2013: 32 countries at different stages of implementing land housing and property policies, including 6 that have completed implementation		
Indicator of achievement		
(ii) Increased number of countries and partners implementing policies to improve security of tenure and reduce forced evictions in collaboration with UN-Habitat	(d). 2 Government and Habitat Agenda partners' capacity to promote hazard-resistant and sustainable housing construction increased [2]	<i>Expert group meeting</i>
Performance measures		(a) Meeting on sustainable housing, sustainable building practices and low-cost building materials and construction technologies (1)
Baseline 2009: 19 countries implementing policies to improve security of tenure, including 2 that have completed reforms		<i>Non-recurrent publications</i>
Estimate 2011: 21 countries implementing policies to improve security of tenure, including 4 that have completed reforms		(a) Knowledge product produced and disseminated on sustainable housing, sustainable building practices and low-cost building materials and construction technologies (1)
Target 2013: 23 countries implementing policies to improve security of tenure, including 6 that have completed reforms		<i>Technical materials</i>
		(a) Guidelines for hazard resistant housing reconstruction for vernacular architecture (1)
		(b) Climate change sensitivity tool on sustainable housing, sustainable building practices and low-cost building materials and construction technologies developed, tested, published and disseminated (1)
		<i>Advisory services</i>
		(a) Advisory services on post-crisis housing reconstruction (4)
		<i>Field projects</i>
		(a) Assistance to Member States, through an enhanced normative and operational framework, to implement sustainable housing demonstration projects, with a focus on sustainable building practices and low-cost building materials and construction technologies (1)
	(d). 3 Government and Habitat Agenda partners' capacity to implement land and housing policies increased [1]	<i>Ad hoc expert group meetings</i>
		(a) Ad hoc expert group meetings on innovative land policies, tenure and management issues (1)
		<i>Non-recurrent publications</i>
		(a) Housing sector profile (one country in the Latin America and the Caribbean region) (1)

institutional and regulatory change, expansion into strategies, action plans and programme development, piloting up-scaling, replication. A given country could be at several different stages simultaneously depending on the policy in question.

(4)</p> <p><i>Field projects</i></p> <p>(a) Enhanced normative and operational framework project to implement systemic, pro-poor and gender-sensitive policies and reforms related to land tenure and land management in Member States (in collaboration with SB, TCBB, RTCD) (2)</p>
	(d). 6 Government and Habitat Agenda partners' capacity to effectively address housing, land and property in the context of crisis-prone and post-crisis countries increased [1]	<p><i>Advisory services</i></p> <p>(a) Technical advice on housing, land and property issues in crisis-affected countries (in collaboration with RTCD, GD) (4)</p> <p><i>Booklets, pamphlets and fact sheets</i></p> <p>(a) Information material (booklets) on housing, land and property rights in the context of crisis (2)</p> <p><i>Technical materials</i></p> <p>(a) Technical guide on housing, land and property issues in the context of crisis (1)</p> <p><i>Training courses, seminars and workshops</i></p> <p>(a) Training on housing, land and property management in the context of crisis (in collaboration with RTCD, GD) (4)</p>

<i>Expected accomplishments</i>	<i>Sub-expected accomplishments</i>	<i>Outputs</i>
		<i>Field Projects</i> (a) Field projects on housing, land and property issues in crisis contexts (4) (b) Enhanced normative and operational framework project on pro-poor, gender-sensitive policies and reforms for land tenure and management in the context of crisis (in collaboration with SB, HPS, RTCD) (1)
	(d). 7 Government and Habitat Agenda partners using alternative approaches to forced evictions [2]	<i>Non- recurrent publications</i> (a) Report documenting cases of forced evictions and alternatives approaches to such evictions (1)
Expected accomplishment (e). Slum improvement and prevention policies under implementation [MTSIP focus area 3]	(e). 1 Government and Habitat Agenda partners' knowledge on slum upgrading and prevention improved [2]	<i>Expert group meeting</i> (a) Country-level expert group meetings on best practices on slum upgrading and prevention (2) <i>Booklets, pamphlets and fact sheets</i> (a) Advocacy and other information materials produced on slum improvement and prevention focusing on land tenure and management issues (E) (1)
Indicator of achievement (i) Degree to which slum prevention and improvement policies are implemented in targeted countries with support from UN-Habitat, as evidenced by an increased number of countries at different stages of implementing slum prevention and improvement policies ⁷		<i>Technical materials</i> (a) Guide on slum upgrading and prevention (1)
Performance measures Baseline 2009: 24 countries implementing slum prevention and improvement policies Estimate 2011: 26 countries implementing slum prevention and improvement policies Target 2013: 28 countries implementing slum prevention and improvement policies	(e). 2 Government and Habitat Agenda partners' capacity to develop slum upgrading and prevention policies and strategies improved [2]	<i>Expert group meeting</i> (a) Interregional expert group meeting on best practices on slum upgrading and prevention (1) (b) National-level expert group meeting on best practices on slum upgrading and prevention (1)
	(e). 3 Government and Habitat Agenda partners supported in implementing slum upgrading and prevention policies	<i>Expert group meeting</i> (a) Global expert group meeting on best practices on slum upgrading and prevention (1) (b) Country-level expert group meeting on best practices on slum upgrading and prevention (1)

⁷ In addition to measuring the number of countries, the indicator also requires information on efforts towards slum improvement and prevention. Slum improvement consists of physical, social, economic, organizational and environmental improvements undertaken locally among citizens, slum-dwellers and community groups to ensure sustained improvements in living conditions. Slum prevention entails implementing changes in the legal and regulatory framework, particularly with regard to land markets, land acquisition, land valuation and legal instruments to facilitate land acquisition. Changes include better access to housing for women and men, especially the very poor, by reviewing the housing finance systems, including access to credit and subsidies.

<i>Expected accomplishments</i>	<i>Sub-expected accomplishments</i>	<i>Outputs</i>
	and strategies [1]	<p><i>Advisory services</i></p> <p>(a) Advisory services to Member States, intergovernmental bodies and United Nations representatives, including the World Bank, on slum prevention and upgrading to address land-related issues (1)</p> <p><i>Field projects</i></p> <p>(a) Enhanced normative and operational framework project on pro-poor, gender-sensitive policies and reforms related to land tenure and management in Member States (1)</p>

Note A: Posts have been realigned for 2012–2013 to ensure alignment of resources with the activities in the work programme and to realize critical/emerging programme priorities and needs.

Note B: Posts funded from earmarked funds (including trust funds) have been excluded from the 2012–2013 staffing tables. These posts are of a temporary nature and the levels subject to frequent changes according to programme/project activity requirements.

95. The proposed budget for subprogramme 1: Shelter and sustainable human settlements development is estimated at \$41.2 million, as detailed in table 10, of which \$12.6 million will be funded from the Foundation general purpose, \$6.2 million from the regular budget and \$22.4 million from the Foundation special purpose. The Shelter and Sustainable Human Settlements Development Division, which is responsible for the implementation of this subprogramme, comprises the following branches and sections: Office of the Director, Shelter Branch, Training and Capacity-building Branch, Urban Development Branch, Urban Environmental Planning Branch (UEPB) and the Urban Design and Planning Services Unit.

1. Foundation general purpose

96. The amount of \$6.6 million provides for the continuation of 27 posts and the outward redeployment of three (one P-5 and two Other Level) posts to the Geneva and Brussels offices under executive direction and management, in line with the ACABQ recommendations to review current structures and realign posts to realize critical or emerging programme priorities and needs and to ensure alignment of resources with activities in the work programme, and an allocation of \$6 million for non-post costs required to support the activities outlined in this section comprising costs associated with consultants and experts, travel, contractual services, including implementation through partners, general operating expenses, supplies and materials, furniture and equipment and reimbursement for services provided by the United Nations Office at Nairobi.

97. The composition of posts is as follows: three (one D-2 and two Local Level) in the Office of the Director; nine (one D-1, one P-5, three P-3, one P-2 and three Local Level) in the Shelter Branch; one (P-4) in the Training and Capacity-building Branch; six (one P-5, one P-4, one P-3 and three Local Level) in the Urban Development Branch; six (two P-4, one P-2 and three Local Level) in the Urban Environmental Planning Branch; and two (one P-5 and one P-3) in the Urban Design and Planning Services Unit.

2. Regular budget

98. The amount of \$5.6 million provides for the continuation of 23 posts: two (one P-4 and one Local Level) in the Office of the Director; ten (two P-5, three P-4, two P-3 and three Local Level) in the Shelter Branch; eight (one P-5, two P-3, two P-2 and three Local Level) in the Training and Capacity-building Branch; two (one D-1 and one P-3) in the Urban Development Branch; and one (P-5) in the Urban Environmental Planning Branch; and an allocation of \$636,900 for non-post costs to cover consultants and experts, travel, contractual services, general operating expenses, supplies and materials and furniture and equipment. The resource requirements have been maintained at the same level pending a review of the proposals to be submitted to the General Assembly for approval as part of the programme budget for 2012–2013.

3. Foundation special purpose

99. The increased amount of \$22.4 million relates to the projected earmarked project budget to support the normative activities outlined above in line with historical trends and the projected requirements for this subprogramme.

B. Subprogramme 2: Monitoring the Habitat Agenda

1. Objective

100. The overall objective is to monitor and assess progress towards the attainment of the Habitat Agenda goals and the targets of the Millennium Declaration and the Johannesburg Plan of Implementation on slums, safe drinking water and sanitation, and to raise global awareness of human settlements issues.

2. Alignment of work programme for subprogramme 2 to the medium-term strategic and institutional plan

101. While the core work of this subprogramme falls within the plan's focus area 1 on effective advocacy, monitoring and partnerships, the substantive content is cross-cutting and contributes to all the other substantive focus areas of the plan. The objective of subprogramme 2 was adapted from the strategic result of focus area 1, while the expected accomplishments, sub-expected accomplishments and indicators of achievement were derived from the plan's results framework. The programme of work was also informed by the strategy paper for focus area 1. In implementing this work programme, there will be collaboration and cooperation across organizational units, particularly on the World Urban Campaign, the World Urban Forum and preparation of flagship reports, among others. In implementing focus area 1, the Monitoring and Research Division will support, through its normative work, the operational activities of UN-Habitat. By producing sound and scientific evidence on urban trends and policies, subprogramme 2 will create conditions for more effective advocacy. In line with the enhanced normative and operational framework, the experience and lessons learned from the division's monitoring and research fieldwork will be used to improve its normative work and technical advice to stakeholders.

3. Strategy

102. The responsibility for subprogramme 2 is vested in the Monitoring and Research Division. The strategy to achieve the overall objective and expected accomplishments of the subprogramme includes: collection and analysis of evidence-based information, gender-sensitive and age-sensitive knowledge and statistics; policy dialogue; strategic partnerships; gender and youth empowerment, as well as communication and exchange of best practices, experience and tools. These strategy components are both normative and operational and are implemented at the global, regional, national and local levels, in line with the medium-term strategic and institutional plan's enhanced normative and operational framework. Working in close collaboration with Habitat Agenda partners, the Division will engage in a coordinated and systematic effort in:

(a) Collecting, collating, analyzing, documenting and disseminating global and national data and evidence-based information on human settlements conditions and trends, including indicators, best practices, good policies, tools, experiences and enabling legislation, for assessing progress towards achieving the goals of UN-Habitat, especially on slums, security of tenure, safe drinking water and sanitation; and use of such data and information for policy formulation;

(b) Identifying, developing, testing, disseminating, promoting and mainstreaming innovative policies, strategies and tools on monitoring of urban conditions, local economic development and finance, urban-rural development linkages, urban poverty reduction, gender equality, women and youth empowerment, and strategic partnerships;

(c) Raising awareness on the role and capacity of public-private partnerships for upscaling pro-poor and inclusive shelter and related infrastructure;

(d) Promoting the transfer and exchange of lessons, experiences and tools learned from best practices and field pilot projects on a North-South and South-South basis;

(e) Disseminating results of monitoring and assessment through various publications, both hard copy and electronic, including the two flagship reports, the Global Report on Human Settlements and the State of the World's Cities, and publications on human settlements finance systems and tools as well publications as in the global urban economic dialogue series;

(f) Through the "Opportunities Fund for Urban Youth-Led Development", UN-Habitat will utilize the small grant mechanism to catalyse its work with youth partners to go to scale. The strategy is to build upon the strengths and compensate for the weaknesses of youth organizations, whose strong connections lie in local knowledge of their communities, to support innovative projects with a strong entrepreneurial focus that impact on their lives and their communities.

(g) Providing leadership on matters related to UN-Habitat partners, as well as support partner engagement throughout the agency and particularly in four key areas: civil society organizations, youth organizations, parliamentarians and the private sector;

(h) The division will enhance gender sensitivity in interventions and policies by supporting gender mainstreaming and women's empowerment, and ensuring that all of the UN-Habitat data-collection tools and evidence-based information on human settlements conditions and trends disseminated is, as much as possible, disaggregated by gender and age.

4. External factors

103. The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that:

(a) Member States will support the creation and maintenance of Habitat Agenda monitoring mechanisms at the national and local levels;

(b) Member States will request technical advisory services and respond positively to follow-up to the advisory services rendered;

(c) There is sufficient political will in support of gender equality, women's rights and empowerment activities at the national and global levels.

5. Results chain

104. Table III presents a chain of results linking expected accomplishments, indicators of achievement and their performance measures, sub-expected accomplishments and outputs that contribute to the realization of the objective for subprogramme 2.

Table III
Subprogramme 2: Monitoring the Habitat Agenda

<i>Expected accomplishment</i>	<i>Sub-expected accomplishment</i>	<i>Outputs</i>
<p>Expected accomplishment</p> <p>(a) Improved awareness of sustainable urbanization conditions and issues at the local, national and global levels [MTSIP focus area 1]</p> <p>Indicator of achievement</p> <p>(i) Upward trend in downloads of the State of the World's Cities report and the Global Report on Human Settlements from the UN-Habitat website</p> <p>Performance measures</p> <p>Baseline 2009: 11,200 downloads of the State of the World's Cities report and the Global Report on Human Settlements</p> <p>Estimate 2011: 15,000 downloads of the State of the World's Cities report and the Global Report on Human Settlements</p> <p>Target 2013: 20,000 downloads of the State of the World's Cities report and the Global Report on Human Settlements</p>	<p>(a).1 Effective dissemination of evidence-based knowledge on urban issues with focus on sustainable urban transport and the economic contribution of cities [1]⁸</p>	<p><i>Parliamentary documentation</i></p> <p>(a) Concept paper on WUF (in collaboration with all subprogrammes) (E, A) (1)</p> <p><i>Expert group meetings</i></p> <p>(a) Expert group meetings on the State of the World's Cities 2012 (2)</p> <p>(b) Expert group meetings on the Global Report on Human Settlements (2)</p> <p><i>Recurrent publications</i></p> <p>(a) State of the World's Cities 2012 (in collaboration with all subprogrammes) (E) (1)</p> <p>(b) Global Report on Human Settlements 2013: sustainable urban transport (in collaboration with the Water, Sanitation and Infrastructure Branch (WSIB) (E) (1)</p> <p><i>Non-recurrent publications</i></p> <p>(a) Cities and Citizens Series (RTCD, SB, Urban Finance Branch (UFB) (E) (4)</p> <p>(b) Abridged edition of Global Report on Human Settlements 2013: sustainable urban transport (in collaboration with WSIB) (E) (1)</p> <p><i>Booklets, pamphlets and fact sheets</i></p> <p>(a) Ad hoc booklet of State of the World's Cities 2012 published with the European Union and UN-Habitat (in collaboration with RTCD, SB, UFB) (E) (1)</p>

⁸

- Sub-expected accomplishment prioritization:
Priority [1]: Sub-expected accomplishments mandated by the Economic and Social Council, General Assembly and the Governing Council;
Priority [2]: Sub-expected accomplishments with strategic importance (i.e., addressing a global trend or challenge of increasing importance) and with a high potential for contributing to expected accomplishments;
Priority [3]: Sub-expected accomplishments with lower strategic importance or with lower potential for contributing to expected results.
- Numbers in square brackets [] after the sub-expected accomplishments indicate the level of prioritization.
- The numbers in round brackets () after outputs denote the quantity of outputs to be produced.
- Letters **A, C, E, F, R, S** in brackets refer to language of publications as follows: **A**- Arabic, **C**- Chinese, **E**- English, **F**- French, **R**- Russian, **S**- Spanish.

<i>Expected accomplishment</i>	<i>Sub-expected accomplishment</i>	<i>Outputs</i>
Performance measures Baseline 2009: 65 institutions Estimate 2011: 200 institutions Target 2013: 350 institutions		(d) Best practice database (web-based urban info) (in collaboration with Press and Media Unit) (1) <i>Training courses, seminars and workshops</i> (a) Urban info training in 10 selected countries in Asia, Africa and Arab regions (4) <i>Expert group meetings</i> (a) Dubai International Award for Best Practices technical meeting (1); Dubai International Award jury (1) Sheikh Khalifa Bin Salman Al Khalifa Award jury (1); Rafik Hariri Memorial Award jury (1)
Expected accomplishment (b) Habitat Agenda partners actively participate in the formulation of sustainable urbanization policy [MTSIP focus area 1]	(b).1 Improved awareness leads to increased participation by Habitat Agenda partner [1]	<i>Special events</i> (a) Global parliamentarians conference on their role in sustainable urbanization (1) (b) WUF board meetings, e-debates, round tables and special sessions on: world urban youth assembly (1); youth round-table session (1); civil society organizations (1); Arab civil society organizations special session (1); global Habitat Business Award for better cities delivered at the Habitat business forum (1); global parliamentarians on habitat round-table meeting (1) (c) Youth advisory board meeting at the twenty-fifth session of the Governing Council (1) <i>Non-recurrent publications</i> (a) Publication on learning from the business award on sustainable urbanization: experiences from best practices in the private sector toward better cities (All six United Nations languages) (1) (b) Women in Cities report (E) (1) <i>Technical materials</i> (a) Tools and best practices on gender mainstreaming in field activities (1) <i>Advisory services</i> (a) Advisory services on gender mainstreaming in local governance (2) <i>Booklets, pamphlets and fact sheets</i> (a) Gender equality for smarter cities (in collaboration with all divisions) (1)
Indicator of achievement (i) Level of partners (by category) contributing to sustainable urbanization policy formulation and implementation with support from UN-Habitat, as evidenced by the number of partners contributing to policy formulation and implementation in sustainable urbanization ⁹		
Performance measures Baseline 2009: 203 diverse partners contributing to policy formulation in sustainable urbanization Estimate 2011: 256 diverse partners contributing to policy formulation in sustainable urbanization Target 2013: 319 diverse partners contributing to policy formulation in sustainable urbanization		
Indicator of achievement (ii) Increased number of youth groups participating in policy formulation and implementation in human settlement programmes		

⁹ The indicator requires information on the number of different types and categories of Habitat Agenda partners that are contributing to activities on sustainable urbanization issues in different countries and the level at which they are engaging. The above figures are an aggregation of diverse partners on whom information is required, including international organizations (45), research or training institutions and universities (25), foundations (9), local authorities (38), private sector organizations (26), and civil society organizations (35) for the 2008–2009 baseline.

¹⁰ The indicator requires descriptive information on progressive adoption of UN-Habitat urban indicators by national and local urban observatories. Because different observatories – even those located in the same country – may do this at different paces, it is not possible to capture the information by performance measures. Nevertheless, progress is reported in progress reports on the implementation of the work programme or medium-term strategic and institutional plan.

Note A: Posts have been realigned for 2012–2013 to ensure alignment of resources with the activities in the work programme and to realize critical and emerging programme priorities and needs.

Note B: Posts funded from earmarked funds (including trust funds) have been excluded from the 2012–2013 staffing tables. These posts are of a temporary nature and the levels subject to frequent changes according to programme and project activity requirements.

105. The proposed budget for subprogramme 2: Monitoring the Habitat Agenda is estimated at \$30.8 million as detailed in table 11, of which \$12.8 million will be funded from the Foundation general purpose, \$5.8 million from the United Nations regular budget and \$12.2 million from the Foundation special purpose. The Monitoring and Research Division, which is responsible for the implementation of the subprogramme, comprises the following branches and sections: Office of the Director, Gender Mainstreaming Unit, Global Urban Observatories Section, City Monitoring Branch, Policy Analysis Branch, Urban Economy and Social Development Branch, and Partners and Youth Branch.

1. Foundation general purpose

106. The amount of \$6.6 million provides for the continuation of 27 posts and the outward redeployment of one post (P-3 Human Settlements Officer to the New York office under executive direction and management), in line with ACABQ recommendations to align resources with the functions and activities reflected in the work programme, and an allocation of \$6.2 million for non-post costs required to support the activities outlined in this section associated with consultants and experts, travel, contractual services, including implementation through partners, general operating expenses, supplies and materials, furniture and equipment and reimbursement for services provided by the United Nations Office at Nairobi.

107. The composition of posts is as follows: two (one D-2 and one Local Level) in the Office of the Director; two (one P-3 and one Local Level) in the Gender Mainstreaming Unit; five (one P-5, one P-4, two P-3 and one Local Level) in the Global Urban Observatories Section; six (one P-5, one P-3, one P-2 and three Local Level) in the City Monitoring Branch; six (one D-1, one P-5, one P-4, one P-2 and two Local Level) in the Policy Analysis Branch; two (1 P-3, 1 Local Level) in the Urban Economy and Social Development Branch; and four (one P-5, one P-4 and two Local Level) in the Partners and Youth Branch.

2. Regular budget

108. The amount of \$5.1 million provides for the continuation of 23 posts: four (one P-4, one P-3 and two Local Level) in the Office of the Director; two (one P-4 and one P-3) in the Gender Mainstreaming Unit; one (P-4) in the Global Urban Observatories Section; five (one D-1, one P-4, one P-3 and two Local Level) in the City Monitoring Branch; three (one P-3 and two Local Level) in the Policy Analysis Branch; four (one P-5, one P-2 and two Local Level) in the Urban Economy and Social Development Branch; and four (one P-4, one P-3, one P-2 and one Local Level) in the Partners and Youth Branch. The sum of \$671,800 is allocated for non-post costs to cover consultants and experts, travel, contractual services, general operating expenses, supplies and materials and furniture and equipment. Resource requirements have been maintained at the same level pending a review of the proposals to be submitted to the General Assembly for approval as part of the programme budget for 2012–2013.

3. Foundation special purpose

109. The decreased amount of \$12.2 million relates to the projected earmarked project budget to support the normative activities outlined above in line with historical trends and the projected requirements for this subprogramme.

C. Subprogramme 3: Regional and technical cooperation

1. Objective

110. The overall objective is to improve sustainable urbanization through the formulation and implementation of urban and housing policies, strategies and programmes primarily at the national and regional levels.

2. Alignment of work programme for subprogramme 3 to the medium-term strategic and institutional plan

111. UN-Habitat combines normative and operational functions. Its normative functions include setting standards, proposing norms and principles, and providing examples of best practices and good policies built on experience gained at the country level. While subprogramme 3 will not lead in the implementation of any of the medium-term strategic and institutional plan's focus area, it contributes to them all. The expected accomplishments, indicators of achievement and sub-expected accomplishments were adapted from the plan's results framework. In implementing the plan, especially in the context of the enhanced normative and operational framework, the Regional and Technical Cooperation Division will contribute to all the focus areas at the country and regional levels and coordinate all UN-Habitat activities at the country level through the Habitat programme managers. In that regard, the Division will:

- (a) Support the World Urban Campaign on sustainable urbanization through national urban forums;
- (b) Support the operationalization of normative policy documents at the national level;
- (c) Coordinate the development of Habitat country programme documents aligned to the plan;
- (d) Coordinate the implementation of integrated national programmes based on the Habitat country programme documents and covering focus areas 1 to 5 in selected focus countries.

112. In line with the plan, the Habitat country programme documents will facilitate the mainstreaming of sustainable urbanization issues, including post-disaster reconstruction, and promote coherence in programming at national level. The second generation of Habitat country programme documents will be further aligned to the plan.

3. Strategy

113. Responsibility for the subprogramme rests with the Regional and Technical Cooperation Division. While the Division will not lead in the implementation of any one focus area, it will participate in the implementation of all five substantive focus areas of the medium-term strategic and institutional plan at the country and regional levels through the enhanced normative and operational framework. To achieve the subprogramme's objective and the expected accomplishments, UN-Habitat will effectively combine normative and operational functions in line with the enhanced normative and operational framework. The normative functions include setting standards, proposing norms and principles and providing examples of best practices and good policies built on experience gained at the country level. The operational activities, consisting of the provision of technical assistance in policy formulation, capacity-building programmes and demonstration project that support the normative work

of UN-Habitat in developing countries and countries with economies in transition, will be implemented in line with the identified national priorities and approved United Nations reforms. The strategies to achieve the objective and expected accomplishments include:

- (a) Strengthening the formulation and implementation of urban planning, management and governance and housing policies, strategies and programmes;
- (b) Developing commensurate capacities at the regional, national and local levels in environmentally sound basic urban infrastructure services for the urban poor;
- (c) Setting of standards, proposing of norms and principles and providing examples of good and best practices;
- (d) National Habitat programme managers will support normative and operational activities at the country level, as well as coordinate the formulation of UN-Habitat country programme documents that inform engagement with Governments, United Nations country teams, United Nations Development Assistance Frameworks, poverty reduction strategy processes and resource mobilization at the country level. Habitat programme managers will contribute to the visibility of human settlements issues and promote their mainstreaming in the United Nations Development Assistance Frameworks, and other national development policy documents;
- (e) Strengthened regional offices will coordinate activities carried out at the regional and country levels and contribute to knowledge management activities in close collaboration with all subprogrammes, including partnering with regional forums. They will also backstop operational activities at the country level and build capacity in disaster prevention and management, and ensure a rapid and effective response to post-conflict crises and disasters, as required;
- (f) Disseminating results of monitoring and assessment through various publications, both hard copy and electronic, including the flagship report series, the regional State of the Cities reports;
- (g) Conducting gender-specific analysis on all interventions and policies, as appropriate, to ensure gender equality. Further, to ensure expanded and equitable access to programme benefits, efforts will be made to create conditions that support women's participation and ensure that programme interventions promote and support activities that increase women's empowerment.

4. External factors

114. The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that:

- (a) Continuing and emerging political and social instability, including natural disasters such as drought, tsunamis, earthquakes and floods, as well as man-made disasters that pose serious threats to programme implementation, will be minimal;
- (b) There is political will among Governments to mainstream urban and housing issues in their national development agendas.

5. Results chain

115. Table IV presents a chain of results linking expected accomplishments, indicators of achievement and their performance measures, sub-expected accomplishments and outputs that contribute to the realization of the objective for subprogramme 3.

Table IV
Subprogramme 3: Regional and technical cooperation

<i>Expected accomplishment</i>	<i>Sub-expected accomplishment</i>	<i>Outputs</i>
<p>Expected accomplishment</p> <p>(a) Improved sustainable urbanization policies from local to regional levels</p> <p>[MTSIP focus area 1]</p> <p>Indicator of achievement</p> <p>(i) Degree to which national habitat forums working with UN-Habitat promote a coordinated approach to sustainable urbanization issues, as evidenced by the number of forums partially or fully promoting a coordinated approach on sustainable urbanization issues¹¹</p> <p>Performance measures</p> <p>Baseline 2009: 12 National habitat forums partially and fully promoting a coordinated approach to sustainable urbanization issues</p> <p>Estimate 2011: 17 National habitat forums partially and fully promoting a coordinated approach to sustainable urbanization issues</p> <p>Target 2013: 20 National habitat forums partially and fully promoting a coordinated approach to sustainable</p>	<p>(a).1 Improved national focus on sustainable urbanization policies [1]¹²</p>	<p><i>Servicing of intergovernmental and expert bodies</i></p> <p>(a) APMCHUD (in collaboration with all UN-Habitat divisions) (1)</p> <p>(b) Ministerial meeting on housing and urban development of the Latin American and Caribbean countries (in collaboration with all UN-Habitat divisions) (1)</p> <p>(c) AMCHUD (in collaboration with all UN-Habitat divisions) (1)</p> <p><i>Parliamentary documentation</i></p> <p>(a) Ministerial meetings on housing and urban development and regional State of the Cities Reports (in collaboration with other UN-Habitat divisions) (S) (1)</p> <p><i>Expert group meetings</i></p> <p>(a) National urban forums (in collaboration with all UN-Habitat divisions) (16)</p> <p>(b) Ibero-American and Caribbean Forum on best practices (in collaboration with Best Practices Section) (2)</p> <p><i>Non-recurrent publications</i></p> <p>(a) Urban profile publications (in collaboration with SB) (E, F) (9)</p> <p>(b) State of Asian Cities report (in collaboration with MRD and the Global Urban Observatory (GUO)) (E) (1)</p> <p>(c) State of Latin America and the Caribbean Cities report (in collaboration with Habitat programme managers) (E, S) (1)</p> <p>(d) State of the African & Arab Cities Reports (A, E, F) (2)</p>

¹¹ National habitat forums (now known as national urban forums) are national committees comprising representatives of Governments, and other Habitat Agenda partners, including local authorities, the private sector, academic and research institutions and non-governmental organizations. The forums are intended to advise governments and provide inputs into urban policies, and promote a coordinated approach on urban issues at the national level. They provide inputs for national reports on progress made in the implementation of the Habitat Agenda, the World Urban Campaign and for World Habitat Day activities.

¹²

- Sub-expected accomplishment prioritization:

Priority [1]: Sub-expected accomplishments mandated by the Economic and Social Council, General Assembly and the Governing Council;

Priority [2]: Sub-expected accomplishments with strategic importance (i.e., addressing a global trend or challenge of increasing importance); and with a high potential for contributing to expected accomplishments;

Priority [3]: Sub-expected accomplishments with lower strategic importance or with lower potential for contributing to expected results.
- Numbers in square brackets [] after the sub-expected accomplishments indicate the level of prioritization.
- The numbers in round brackets () after outputs denote the quantity of outputs to be produced.
- Letters **A, C, E, F, R, S** in brackets refer to language of publications as follows: **A**- Arabic, **C**- Chinese, **E**- English, **F**- French, **P**- Portuguese, **R**- Russian, **S**- Spanish.

Note A: Posts have been realigned for 2012–2013 to ensure alignment of resources with the activities in the work programme and to realize critical/emerging programme priorities and needs.

Note B: Posts funded from earmarked funds (including trust funds) have been excluded from the 2012–2013 staffing tables. These posts are of a temporary nature and the levels subject to frequent changes according to programme/project activity requirements.

116. The proposed budget for subprogramme 3: Regional and technical cooperation is estimated at \$211.9 million, as reflected in table 12, of which \$10.2 million will be funded from the Foundation general purpose; \$2.9 million from the regular budget; \$11.9 million from the Foundation special purpose; and \$186.9 million from the Technical Cooperation fund. The Regional and Technical Cooperation Division comprises the following branches and sections: Office of the Director, Technical Advisory Branch, Regional Office for Africa and the Arab States, Regional Office for Asia and the Pacific, and the Regional Office for Latin America and the Caribbean.

1. Foundation general purpose

117. The amount of \$4.7 million provides for the continuation of eight posts and includes 50 per cent (\$2.5 million) of the costs budgeted to support the Habitat programme managers working at country level and the outward redeployment of one post (P-4) Human Settlements Officer to the New York office, in line with ACABQ recommendations to align resources with the functions and activities reflected in the work programme, and a reduced allocation of \$5.5 million for non-staff costs required to support the normative activities outlined in this section comprising costs associated with consultants and experts, travel of staff, contractual services including implementation through partners, general operating expenses, supplies and materials, furniture and equipment and reimbursement for services provided by the United Nations Office at Nairobi.

118. The composition of posts is as follows: two (Local Level) in the Office of the Director, one (P-4) in the Technical Advisory Branch; three (two P-4 and one P-3) in the Regional Office for Africa and the Arab States; one (P-4) in the Regional Office for Asia and the Pacific; and one (P-4) in the Regional Office for Latin America and the Caribbean.

2. Regular budget

119. The amount of \$2.6 million provides for the continuation of five posts: two (one D-2 and one Local Level) in the Office of the Director; one (P-4) in the Regional Office for Africa and the Arab States; one (P-4) in the Regional Office for Asia and the Pacific; and one (P-4) in the Regional Office for Latin America and the Caribbean; and includes a general temporary assistance allocation for three interregional advisors at the P-5 level in the Technical Advisory Branch. The sum of \$309,100 is allocated for non-post costs to cover consultants and experts, travel, contractual services, general operating expenses, supplies and materials and furniture and equipment. Resource requirements have been maintained at the same level pending a review of the proposals to be submitted to the General Assembly for approval as part of the programme budget for 2012–2013.

3. Foundation special purpose

120. The amount of \$11.9 million relates to the projected earmarked project budget to support the normative activities outlined above in line with historical trends and the projected requirements for this subprogramme and includes 50 per cent (\$2.5 million) of the costs budgeted to support Habitat programme managers working at the country level under the corresponding programme support account.

4. Technical cooperation

121. The amount of \$186.9 million relates to the projected earmarked project budget to support the technical cooperation country level activities in line with the historical trends and the projected requirements for this subprogramme.

D. Subprogramme 4: Human settlements financing

1. Objective

122. The overall objective is to improve access to finance, institutional and policy arrangements for housing and basic infrastructure and services for the urban poor

2. Alignment of work programme for subprogramme 4 to the medium-term strategic and institutional plan

123. The programme of work for subprogramme 4 is closely aligned to the medium-term strategic and institutional plan. The subprogramme objectives, expected accomplishments, indicators of achievement and sub-expected accomplishments were derived from the medium-term strategic and institutional plan results framework for focus areas 4 and 5. The work programme was also informed by related focus area strategy papers. It will be implemented in line the principles of the enhanced normative and operational framework in close collaboration and consultation with other organizational units and focus areas.

3. Strategy

124. Responsibility for subprogramme 4 rests with the Human Settlements Financing Division, which also serves as the institutional anchor for the activities of the United Nations Habitat and Human Settlements Foundation. The Foundation is dedicated to working with Member States and domestic and international financial institutions to mobilize resources for affordable housing, water and sanitation and related infrastructure initiatives. In the implementation of the medium-term strategic and institutional plan, the Human Settlements Financing Division takes the lead in focus area 4, environmentally sound basic urban infrastructure and services, and focus area 5, strengthening human settlements finance systems, as its principal areas of work while collaborating with and contributing to all the other focus areas of the plan.

125. Largely informed by past experience, a key strategy of subprogramme 4 is to mobilize local and international public funds, community savings and private sector capital to enable greater scale investment in the sector, and in pro-poor housing, basic infrastructure and services. The strategy of the subprogramme will make a substantive and progressive contribution towards the achievement of the Millennium Declaration targets and Johannesburg Plan of Implementation on slums and water and sanitation. Subprogramme 4 strategy will comprise the following elements:

(a) Strengthening the catalytic role of UN-Habitat in accordance with the medium-term strategic and institutional plan, by working with a range of partners and new arrangements to invest and leverage external financing in affordable housing, social housing (including subsidized housing and subsidized rental schemes) and environmentally sound basic infrastructure and services in developing countries and in countries with economies in transition. Special focus will be placed on the needs of slum-dwellers and low-income groups;

(b) Expanding current revolving credit and local finance credit enhancement facilities providing start-up funds, catalytic credit enhancement and targeted technical assistance to communities, domestic banks, and microfinance institutions and municipalities for the purpose of building affordable and social housing finance and related infrastructure;

(c) The division will provide support to the Water for African Cities Programme, Water for Asian Cities Programme and Water for Latin America and Caribbean Cities Programme through the Water and Sanitation Trust Fund, together with support to the replicable model-setting initiatives in the Lake Victoria and Mekong regions. Focused on improving access for the urban poor to water supply and sanitation, these programmes and the replicable model-setting initiatives demonstrate innovative approaches on the ground in partnership with Governments, water and sanitation utilities and civil society, including community-based organizations. A key guiding principle for the programmes is pro-poor governance. The programmes also provide an operational link to normative work, such as that on the rights-based approach to water and sanitation, water demand management and Human Values-based Water Sanitation and Hygiene Education;

(d) Strengthening the Global Water Operators' Partnerships Alliance and supporting water operators' partnerships activities worldwide and regional water operators' partnerships platforms in sub-Saharan Africa, Asia and the Pacific, the Arab region, and Latin America and the Caribbean region in partnership with regional development banks and other substantive and financial partners;

(e) Promoting strategic partnerships among municipalities, private sector utility operators, financial institutions, and central Governments; and collaboration in designing infrastructure and housing investments with stakeholder beneficiaries, key among them being community organizations, women, youth and other vulnerable groups;

(f) Promoting sustainable transport, especially non-motorized transport, such as bicycles, bus lanes and other forms of mass transit and sustainable transport designed to encourage economic growth in urban areas benefiting all urban residents;

(g) Undertaking energy efficiency audits of water utility operations, as well as working with local electricity utility companies in slum-electrification programmes, in anticipating partnership with financing analysis for programme implementation;

(h) Working with the World Bank Group, regional development banks, and other development banks, the private sector, United Nations system agencies and other relevant partners to link the normative, technical cooperation and catalytic funding activities of UN-Habitat with such institutions to leverage international and domestic capital for investment to achieve sustainable cities;

(i) Addressing the needs of individual borrowers for financial literacy training, of domestic banks for technical assistance in working with informal-income borrowers, of microfinance institutions in expanding into microfinance housing lending, and of community groups in developing viable housing and infrastructure improvement projects;

(j) Programmes in human settlements finance, and water and sanitation will be decentralized to regional offices to encourage the rapid transfer of knowledge and funding to local institutions and communities;

(k) The subprogramme will take into account the different needs and priorities of women, men and vulnerable groups in decision-making and implementation of programmes on human settlements financing, sustainable water and sanitation, infrastructure, slum upgrading, energy and transport and address the gender imbalances and inequalities in the provision of all these services at all levels. To enhance gender-sensitive interventions and policies, efforts will be made in all programmes to create conditions that support women, including capacity-building. Where appropriate, the subprogramme will conduct gender analysis on interventions, including policies.

4. Future of human settlements financing programmes

126. Pursuant to UN-Habitat Governing Council resolution 21/10 on strengthening the Habitat and Human Settlements Foundation, 2011 marks the end of a four-year experimental period of the Experimental Reimbursable Seeding Operations (ERSO) programme. On the basis of the results of an independent evaluation of the programme, to be submitted to the Governing Council at its twenty-third session, a decision will be taken on whether it should be phased out, continued in its current form or continued in a modified form. For the option selected, the decision will address the future organizational setting, as necessary, and the operational resources required to ensure successful implementation. The planned outputs and corresponding resource requirements for future housing finance activities at UN-Habitat will be subject to a decision by the Governing Council at its twenty-third session on the future of the ERSO programme beyond April 2011.

5. External factors

127. The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that:

(a) There is support among Member States and domestic financial institutions at the country level to develop financial mechanisms for mobilizing domestic capital for slum upgrading; and

(b) There is political will to overcome institutional barriers and identify modalities for effective partnerships that result in financial commitments for both shelter and local level infrastructure, especially water and sanitation.

6. Results chain

128. Table V presents a chain of results linking expected accomplishments, indicators of achievement and their performance measures, sub-expected accomplishments and outputs that contribute to the realization of the objective for subprogramme 4.

- Sub-expected accomplishment prioritization:
Priority [1]: Sub-expected accomplishments mandated by the Economic and Social Council, General Assembly and the Governing Council;
Priority [2]: Sub-expected accomplishments with strategic importance (i.e., addressing a global trend or challenge of increasing importance); and with a high potential for contributing to expected accomplishments;
Priority [3]: Sub-expected accomplishments with lower strategic importance; or with lower potential for contributing to expected results.
- Numbers in square brackets [] after the sub-expected accomplishments indicate the level of prioritization.
- The numbers in round brackets () after outputs denote the quantity of outputs to be produced.
- Letters **A, C, E, F, R, S** in brackets refer to language of publications as follows: **A**- Arabic, **C**- Chinese, **E**- English, **F**- French, **R**- Russian, **S**- Spanish.

¹⁵ The additional information to be provided includes different forms of financing accessed (e.g., borrowing or accessing capital markets); funds committed directly by Government; different levels of government involved, new staffing and capacity located within municipal governments to attract and manage finance and or revolving funds.

*Expected accomplishment**Sub-expected accomplishment**Outputs***Indicator of achievement**

(ii) Level of affordable housing finance sector activity, as evidenced by the number of new affordable housing units built and infrastructure connections facilitated, availability of mortgage finance products and the number of developers targeting affordable housing¹⁶

Performance measures

Baseline 2009: N/A

Estimate: 2011: 1,500 new affordable housing units built and infrastructure connections facilitated in UN-Habitat supported projects

Target: 2013: 10,000 new affordable housing units built and infrastructure connections facilitated in UN-Habitat supported projects

Indicator of achievement

(iii) Level of growth in borrower financial literacy programmes in the local finance facility and the experimental reimbursable seeding operations project, as evidenced by number of new financial literacy programmes in countries implementing the above-mentioned facility and project.¹⁷

Performance measures

Baseline 2009: 5 programmes delivered to 300 households through formal and informal means in projects supported by UN-Habitat

Estimate 2011: 10 programmes delivered to 2,000 households through formal and informal means in projects supported by UN-Habitat

Target: 2013: 20 programmes delivered to 12,000 households through formal and informal means in projects supported by UN-Habitat

¹⁶ Descriptive information on the indicator will include new forms of financing (e.g., mortgage finance and community project finance) or expanded financing available, new financial products suited to lower income markets, types of intervention (e.g., incremental in-situ housing improvement and new home construction infrastructure market stalls).

¹⁷ This indicator will also include descriptive information on types of capacity-building on financial issues provided (e.g., formal group seminars, individual counselling and learning through project development), promoting responsible learning to ensure that borrowers understand the implications of taking a loan and ultimately improving access to housing and infrastructure finance.

Note: Posts funded from earmarked funds (including trust funds) have been excluded from the 2012-2013 staffing tables. These posts are of a temporary nature and the levels subject to frequent changes according to programme/project activity requirements.

129. The proposed budget for subprogramme 4: Human settlements financing is estimated at \$63.3 million, as reflected in table 13, of which \$9.4 million is funded from the Foundation general purpose, \$2.5 million from the regular budget, and \$51.4 million from the Foundation special purpose. The component comprises the following branches and sections: Office of the Director, the Urban Finance Branch and the Water, Sanitation and Infrastructure Branch.

1. Foundation general purpose

130. An amount of \$5.3 million provides for the continuation of 20 posts and an amount of \$4.1 million for non-staff costs required to support the activities outlined in this section comprising costs associated with consultants and experts, travel of staff, contractual services, general operating expenses, supplies and materials, furniture and equipment, and reimbursement for services provided by the United Nations Office at Nairobi.

131. The composition of posts is as follows: three (one D-2 and two Local Level) in the Office of the Director, 11 (one D-1, one P-5, two P-4, three P-3 and four Local Level) in the Urban Finance Branch, and six (one D-1, two P-5, one P-3 and two Local Level) in the Water, Sanitation and Infrastructure Branch.

2. Regular budget

132. The amount of \$2.3 million provides for the continuation of nine posts: two (P-4) in the Urban Finance Branch, and seven (one P-5, one P-4, two P-3, one P-2 and two Local Level) in the Water, Sanitation and Infrastructure Branch, and \$220,700 for non-post costs to cover the cost of consultants and experts, travel, contractual services, general operating expenses, supplies and materials and furniture and equipment. Resource requirements have been maintained at the same level pending a review of the proposals to be submitted to the General Assembly for approval as part of the programme budget for 2012–2013.

3. Foundation special purpose

133. The amount of \$51.4 million relates to the projected earmarked project budget to support the normative activities outlined above in line with historical trends and projected requirements for this subprogramme.

E. Programme Support Division

1. Objective

134. The overall objective is to provide support for the implementation of the human settlements programme through programme planning and coordination, budgetary, financial and administrative management, oversight services, legal services and human resources planning.

2. Alignment of work programme for the Programme Support Division to the medium-term strategic and institutional plan

135. The Programme Support Division is responsible for the implementation of the medium-term strategic and institutional plan's focus area 6, together with Executive Direction and Management. The expected accomplishments, indicators of achievement and sub-expected accomplishments are derived from the results framework.

3. Strategy

136. The Programme Support Division consists of the following units: the Programme Planning and Coordination Unit; Management Support Services Section; Programme Support Services Section; and Legal Services Unit. The Division will support implementation of the UN-Habitat programme of work, contributing primarily towards the plan's sixth focus area, on excellence in management, through the following: institutionalization of results-based management in the organization; programme planning and quality assurance in programme and project design; budgeting, financial and administrative management; human resource planning; legal services and advice; effective servicing of funding partners and compliance with agreements; streamlining key procedures and approval processes, improving workflows and automating processes; improving operational and procedural guidelines and control systems; and ensuring implementation of recommendations of the Board of Auditors and the Office of Internal Oversight Services. The Programme Support Division will provide these services together with the administrative project staff in the regional and field offices and the Division of Administrative Services of the United Nations Office at Nairobi.

137. In carrying out the programme planning and coordination functions, the Programme Support Division will lead in strengthening and mainstreaming results-based management in the organization. The Division will initiate, guide and coordinate the preparation of the biennial results-based strategic framework, biennial work programme and the annual workplan for UN-Habitat, in a participatory manner and in full compliance with the medium-term strategic and institutional plan and in line with the road map. Continuous and sustained capacity-building in results-based management and programme management will continue, to ensure that all staff have the requisite knowledge and skills and can apply them in their work. During the biennium, the Division will prepare the biennial work programme and budget for 2014–2015 and the strategic framework for 2016–2017. The Division will continue to coordinate the activities of all programme review committees, including the regional programme review committees and act as the secretariat to the UN-Habitat headquarters Programme Review Committee. It will ensure that the committees and their tools are continually refined and updated to enhance their effectiveness in providing quality assurance for programmes and projects at the design and implementation stages, results focus, programmatic alignment, coherence and internal collaboration.

138. In leading the preparation of the biennial budget, the division will continue to adopt a participatory process in consultation with all divisions, including the Office of Executive Direction and Management, and to ensure that allocation and effective use of resources is in line with organization priorities and in compliance with financial and administrative rules and regulations. In addition, the division will ensure efficient, cost effective and strategic administrative management in collaboration with the United Nations Office at Nairobi to support the delivery of programme support services, taking note of the emergency requirements at the country level.

139. The division will support the internal and external audit process and ensure effective follow-up on all audit recommendations aimed at improving the overall performance of the organization. Following up on the risk assessment carried out by the Office of Internal Oversight Services, UN-Habitat will develop a risk management framework. The division will ensure that essential operational policies and procedures in critical business areas are developed and updated. In addition, the division will review compliance of the organization's activities with established policies, plans and

procedures; continuously assess the effectiveness of the organization's controls, including the accountability framework, and make recommendations for improvement; monitor the effective and efficient use of resources and conformity of expenditures with their intended purposes.

(a) The recruitment of qualified staff against all new and vacant posts will be aligned with the medium-term strategic and institutional plan objectives, in line with Governing Council resolution 21/2. To enhance delivery and effectiveness of the medium-term strategic and institutional plan, a human resource policy aimed at aligning the human resources with the organizational needs, and based on merit and balanced geographical and gender representation, will be implemented through simplified and streamlined policies and procedures, taking into account the human resource needs at the regional and field levels. This will be done in close collaboration with the United Nations Office at Nairobi. UN-Habitat will strive to achieve regional balance in the recruitment of consultants. Staff development through effective training programmes in substantive programme areas, results-based management, leadership and management skills, including ethics training to strengthen the accountability and performance management, will be undertaken to improve the quality of services, programmes and procedures, and also to support the change management process. To promote transparent financial reporting, strong accountability and good governance, the Division will support adoption of the International Public Sector Accounting Standards (IPSAS). In addition, to ensure effective planning and management of resources, support improved business processes and performance management, and also to reduce operational costs, the Division will lead the implementation of the enterprise resource planning (ERP) system, in line with the continuing United Nations system-wide reforms.

(b) In providing legal services and advice, the Programme Support Division will review, update and disseminate the approved legal framework to enable UN-Habitat to carry out its operational activities in implementing the Habitat Agenda and meeting the Millennium Development Goals and targets under its responsibility. The legal function will continue to ensure that the organization's interests are effectively represented and safeguarded.

4. External factors

140. The subprogramme is expected to achieve its objectives and expected accomplishments on the assumption that the exchange rate and the rate of inflation remain within the levels forecast.

5. Results chain

141. Table VI presents a chain of results linking expected accomplishments, indicators of achievement and their performance measures, sub-expected accomplishments and outputs that contribute to the realization of the objective for the Programme Support Division.

- Sub-expected accomplishment prioritization:
Priority [1]: Sub-expected accomplishments mandated by the Economic and Social Council, General Assembly and the Governing Council;
Priority [2]: Sub-expected accomplishments with strategic importance (i.e., addressing a global trend or challenge of increasing importance); and with a high potential for contributing to expected accomplishments;
Priority [3]: Sub-expected accomplishments with lower strategic importance; or with lower potential for contributing to expected results.
- Numbers in square brackets [] after the sub-expected accomplishments indicate the level of prioritization.
- The numbers in round brackets () after outputs denote the quantity of outputs to be produced.
- Letters **A, C, E, F, R, S** in brackets refer to language of publications as follows: **A-** Arabic, **C-** Chinese, **E-** English, **F-** French, **R-** Russian, **S-** Spanish.

Total	19 254.2	(4 386.3)	14 867.9	61	46

Note A: Posts have been realigned for 2012–2013 to ensure alignment of resources with the activities in the work programme and to realize critical and emerging programme priorities and needs.

Note B: Posts funded from earmarked funds (including trust funds) have been excluded from the 2012–2013 staffing tables. These posts are of a temporary nature and the levels are subject to frequent changes according to programme and project activity requirements.

142. The proposed budget for programme support is estimated at \$14.9 million, as reflected in tables 14 (a) and 14 (b), of which \$5.6 million will be funded from the Foundation General purpose, \$345,400 from the regular budget; \$5.8 million from the Foundation special purpose, and \$3.1 million from the technical cooperation fund. The Programme Support Division comprises the following branches and sections: Office of the Director (which includes the Legal Unit), Programme Coordination and Planning Unit, Management Support Section and Programme Support Section.

1. Foundation general purpose

143. The amount of \$3.1 million provides for the continuation of 12 posts, and a reduced amount of \$2.4 million for non-staff costs required to support the activities outlined in this section comprising costs associated with consultants and experts, travel of staff, contractual services including implementation through partners, general operating expenses, supplies and materials, furniture and equipment and reimbursement for services provided by the United Nations Office at Nairobi.

144. The composition of posts is as follows: three (one D-1, one P-3 and one Local Level) in the Office of the Director, two (one P-5 and one P-4) in the Programme Coordination and Planning Unit, six (one P-5, two P-4 and three Local Level) in the Management Support Section and one (Local Level) in the Programme Support Section.

2. Regular budget

145. The amount of \$345,400 provides for the continuation of one post (P-4) in the Programme Support Section, and \$6,300 for non-post costs to cover general operating expenses, supplies and materials and furniture and equipment. The resource requirements have been maintained at the same level pending a review of the proposals to be submitted to the General Assembly for approval as part of the United Nations programme budget for 2012–2013.

3. Foundation special purpose

146. The amount of \$5.8 million relates to the programme support account to support the activities outlined above in line with historical trends and the projected requirements for this subprogramme.

4. Technical cooperation

147. The amount of \$3.1 million relates to the programme support account to support the technical cooperation country-level activities in line with the historical trends and the projected requirements for this subprogramme.

Annex I

Legislative mandates

General Assembly resolutions

S-25/2	Declaration on Cities and Other Human Settlements in the New Millennium
53/242	Report of the Secretary-General on environment and human settlements
55/2	United Nations Millennium Declaration
56/206	Strengthening the mandate and status of the Commission on Human Settlements and the status, role and functions of the United Nations Centre for Human Settlements (Habitat)
57/270 B	Integrated and coordinated implementation of and follow-up to the outcomes of the major United Nations conferences and summits in the economic and social fields
57/275	Special session of the General Assembly for an overall review and appraisal of the implementation of the outcome of the United Nations Conference on Human Settlements (Habitat II) and the strengthening of the United Nations Human Settlements Programme (UN-Habitat)
58/217	International Decade for Action, "Water for Life", 2005-2015
58/269	Strengthening of the United Nations: an agenda for further change
60/1	2005 World Summit Outcome (subprogrammes 1, 2 and 3)
60/124	Strengthening of the coordination of emergency humanitarian assistance of the United Nations (subprogrammes 1 and 3)
60/125	International cooperation on humanitarian assistance in the field of natural disasters, from relief to development (subprogrammes 1 and 3)
60/196	Natural disasters and vulnerability (subprogrammes 1 and 3)
61/131	International cooperation on humanitarian assistance in the field of natural disasters, from relief to development
61/200	Natural disasters and vulnerability
62/91	Strengthening emergency relief, rehabilitation, reconstruction and prevention in the aftermath of the Indian Ocean tsunami disaster
62/92	International cooperation on humanitarian assistance in the field of natural disasters, from relief to development
63/281	Climate change and its possible security implications
64/135	Implementation of the outcome of the World Summit for Social Development and of the twenty-fourth special session of the General Assembly
64/136	Cooperatives in social development
64/141	Follow-up to the Fourth World Conference on Women and full implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly
64/193	Follow-up to and implementation of the Monterrey Consensus and the outcome of the 2008 Review Conference (Doha Declaration on Financing for Development)

- 64/199 Follow-up to and implementation of the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States
- 64/200 International Strategy for Disaster Reduction
- 64/207 Implementation of the outcome of the United Nations Conference on Human Settlements (Habitat II) and strengthening of the United Nations Human Settlements Programme (UN-Habitat)
- 64/213 Fourth United Nations Conference on the Least Developed Countries
- 64/216 Second United Nations Decade for the Eradication of Poverty (2008-2017)
- 64/236 Implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the outcomes of the World Summit on Sustainable Development

Economic and Social Council resolutions, decisions and agreed conclusions

- 2002/1 Agreed conclusions 2002/1 on strengthening further the Economic and Social Council, building on its recent achievements, to help it fulfil the role ascribed to it in the Charter of the United Nations as contained in the United Nations Millennium Declaration
- 2003/62 Coordinated implementation of the Habitat Agenda
- 2005/48 Role of the Economic and Social Council in the integrated and coordinated implementation of the outcomes of and follow-up to the major United Nations conferences and summits
- 2007/250 Documents considered by the Economic and Social Council in connection with economic and environmental questions on human settlements
- 2009/238 Human settlements

Governing Council resolutions

- 19/5 Implementing and monitoring the goal of the United Nations Millennium Declaration on improving the lives of slum-dwellers
- 19/6 Water and sanitation in cities
- 19/10 Urban-rural linkages and sustainable urbanization
- 19/13 Enhancing the engagement of youth in the work of UN-Habitat
- 19/16 Women's role and rights in human settlements development and slum upgrading
- 20/1 Youth and human settlements
- 20/6 Best practices, good policies and enabling legislation in support of sustainable urbanization and the attainment of internationally agreed development goals
- 20/7 Gender equality in human settlements development
- 20/10 World Urban Forum
- 21/1 Proposed work programme and budget of the United Nations Human Settlements Programme for 2008-2009
- 21/2 Medium-term strategic and institutional plan for 2008-2013
- 21/9 Women's land and property rights and access to finance
- 22/4 Strengthening the development of urban young people

Subprogramme 1

Shelter and sustainable human settlements development

Governing Council resolutions

- 19/3 Global campaigns on secure tenure and urban governance
- 19/4 Cooperation between the United Nations Human Settlements Programme and the United Nations Environment Programme
- 19/12 Decentralization and strengthening of local authorities
- 20/16 Enhancing the involvement of civil society in local governance
- 20/18 Decentralization and strengthening of local authorities
- 20/20 Thirteenth session of the Commission on Sustainable Development
- 21/3 Guidelines on decentralization and strengthening of local authorities
- 21/5 Sustainable development of Arctic human settlements
- 22/1 Third session of the United Nations Conference on housing and sustainable development
- 22/3 Cities and climate change
- 22/8 Guidelines on access to basic services for all

Subprogramme 2

Monitoring the Habitat Agenda

General Assembly resolutions

- 34/114 Global report on human settlements and periodic reports on international cooperation and assistance on human settlements
- 55/194 Scope to be covered by the special session of the General Assembly on the overall review and appraisal of the implementation of the outcome of the United Nations Conference on Human Settlements (Habitat II)
- 59/248 World survey on the role of women in development
- 64/130 Policies and programmes involving youth
- 64/141 Follow-up to the Fourth World Conference on Women and full implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly

Economic and Social Council resolutions

- 2001/22 Integrated and coordinated implementation of and follow-up to major United Nations conferences and summits: coordinated implementation of the Habitat Agenda

Governing Council resolutions

- 19/10 Urban-rural linkages and sustainable urbanization
- 19/13 Enhancing the engagement of youth in the work of UN-Habitat
- 21/6 Urban youth development
- 21/9 Women's land and property rights and access to finance
- 22/4 Strengthening the development of urban young people
- 22/6 Habitat awards

Subprogramme 3

Regional and technical cooperation

General Assembly resolutions

- 59/243 Integration of the economies in transition into the world economy
- 59/250 Triennial comprehensive policy review of operational activities for development of the United Nations system
- 64/129 Assistance to refugees, returnees and displaced persons in Africa

Governing Council resolutions

- 19/7 Regional and technical cooperation
- 19/15 Countries with economies in transition
- 19/18 Human settlements development in the occupied Palestinian territories
- 20/14 Special Human Settlements Programme for the Palestinian People
- 20/15 Habitat programme managers and regional offices
- 20/17 Post-conflict, natural and human-made disaster assessment and reconstruction

Subprogramme 4

Human settlements financing

General Assembly resolutions

- 3327 (XXIX) Establishment of the United Nations Habitat and Human Settlements Foundation
- 63/229 Role of microcredit and microfinance in the eradication of poverty

Governing Council resolutions

- 19/11 Strengthening the United Nations Habitat and Human Settlements Foundation
- 20/11 Strengthening the slum upgrading facility of the United Nations Habitat and Human Settlements Foundation
- 21/4 Guiding principles on access to basic services for all
- 21/7 Sustainable public-private partnership incentives for attracting large-scale private-sector investment in low-income housing
- 21/8 Africa fund/financing mechanism on slum prevention and upgrading
- 21/10 Strengthening the Habitat and Human Settlements Foundation: experimental financial mechanisms for pro-poor housing and infrastructure
- 22/2 Affordable housing finance
- 22/8 Guidelines on access to basic services for all

Annex II

Matrix on internal and external collaboration in delivering medium-term strategic and institutional plan results

A. Subprogramme 1. Shelter and sustainable human settlements development

Expected accomplishments	Sub-expected accomplishments	Unit responsible	Internal partners	External partners
1. Improved policies, legislation and strategies support inclusive urban planning, management and governance <i>[MTSIP focus area 2]</i>	1.1 Improved policy analysis [3] 1.2 Policy advocacy improved, including through campaign [2] 1.3 Increased application of best policy practices [1] 1.4 Effective policies and strategies related to urban planning, management and governance, including in crisis-prone and post-crisis human settlements contexts [1]	UDB,UEPB / TCBB UDB / UEPB TCBB, DMP UDB / UEPB TCBB, DMP	RTCD, GD (SB), GMU, PYB HSFD (WSIB) RTCD, MRD (UESD), EDM (ISS, WUF Secretariat) RTCD, OED, HSFD	ILO, UNITAR IFAD, UNEP and World Bank, UCLG, AMCHUD APMCHUD UNDP, ISDR, UNEP, United Nations Framework Convention on Climate Change, Convention on Biological Diversity, Commission on Sustainable Development
2. Strengthened institutions promoting sustainable urbanization <i>[MTSIP focus area 2]</i>	2.1 Strengthened organization structures and processes for urban planning, management and governance [2] 2.2 Improved competencies and enhanced base for human resources for urban planning, management and governance [2] 2.3 Improved development of, access to, and application of tools for urban planning, management and governance [2]	TCBB, UEPB TCBB, UDB, UEPB UDB, TCBB, UEPB	RTCD, MRD (GMU, PYB) RTCD, MRD (GMU, PYB,UESD)	ILO, UNDP, WHO UNODC, UNITAR UNESCO, UCLG World Bank, UNEP, ICLEI National local government training institutions, partner universities
3. Implementation of inclusive urban planning, management and governance improved <i>[MTSIP focus area 2]</i>	3.1 Improved inclusive action planning [2] 3.2 Enhanced strategic partnerships for urban planning, management and governance [2] 3.3 Improved management of financial resources for urban planning, management and governance [2] 3.4 Improved capacity to apply urban planning, management and governance, including in crisis-prone and post-crisis human settlements contexts [1]	UDB, UEPB TCBB UDB, UEPB TCBB UDB, UEPB TCBB	RTCD, MRD (GMU, PYB, UESD) RTCD, HSFD	AU, UNDP UNITAR ISOCARP UNEP, World Bank, GEF, ICLEI, Convention on Biological Diversity, Ramsar Convention

B. Subprogramme 2. Monitoring the Habitat Agenda

Expected accomplishments	Sub-expected accomplishments	Unit responsible	Internal partners	External partners
1. Awareness of sustainable urbanization conditions and issues at the local, national and global levels improved <i>[MTSIP focus area 1]</i>	1.1 Effective dissemination of evidence-based knowledge on urban issues with focus on sustainable urban transport and economic contribution of cities [1] 1.2 Expanded use of evidence-based knowledge in urban policy planning [1]	City Monitoring. Branch Policy Analysis Branch	EDM (ISS), GD (TCBB, UDB UEPB), RTCD, HSFD (WSIB), MRD (PYB, GMU) HSFD (UFB), RTCD, GD (SB) WUF secretariat and Press and Media Unit	Universities Research centres Media Governments (local, central & regional) WHO, UNICEF, UNFPA, World Bank
2. Habitat Agenda partners actively participate in the formulation of sustainable urbanization policy <i>[MTSIP focus area 1]</i>	2.1 Improved awareness increases participation of Habitat Agenda Partners [1] 2.2 Habitat Agenda Partners commit to agreed norms and principles for sustainable urbanization [2] 2.3 Habitat Agenda Partners' capacity in monitoring government policy and implementation strengthened [3]	Partners and Youth Branch, Gender Mainstreaming Unit	GD (Safer Cities, TCBB, Shelter Branch, UEPB), HSFD(WSIB), RTCD, MRD (GUO, Best Practice, Policy Analysis Branch, UESD) EDM (Resource Mobilization Unit, ISS)	UN-Women, ILO, Human Commission Centre for Women, HIC, UNDESA, UNICEF, UNESCO, COHRE, Shack/Slum Dwellers International
3. Monitoring of sustainable urbanization conditions and trends improved <i>[MTSIP focus area 1]</i>	3.1 Increased capacity for implementation of urban monitoring systems [2] 3.2 Increased demand for evidence-based knowledge in policymaking and practice, including sex and age-disaggregated data [1]	GUO	RTCD, GD (UDB, SB), HSFD (WSIB)	UNFPA, ESCWA, Joint Research Centre, ECA, National statistics offices
4. Awareness among Governments and Habitat Agenda partners of the contribution of urban economic development and finance to poverty reduction and sustainable human settlements development improved <i>[MTSIP focus areas 2 and 5]</i>	4.1 Increased demand for knowledge in effective economic development and finance systems and policies [1] 4.2 Improved capacity for sustainable urban economic development and finance [3]	Urban Economy & Social Development Branch (UESD)	RTCD, HSFD MRD GD (UDB, TCBB), HSFD (UFB), MRD (GMU) EDM (ISS)	ESCAP, ECA

C. Subprogramme 3. Regional and technical cooperation

Expected accomplishments	Sub-expected accomplishments	Unit responsible	Internal partners	External partners
1. Sustainable urbanization policies from local to regional levels improved <i>[MTSIP focus area 1 and 2]</i>	1.1 Improved national focus on sustainable urbanization policies [1] 1.2 Improved capacity of regional offices and Habitat programme managers to establish and manage national urban forums in Technical Advisory Branch (TAB) [1] 1.3 Improved awareness of planning instruments for sustainable urbanization at national level [2] 1.4 International guidelines on decentralization adapted and implemented in TAB [1]	RTCD RTCD RTCD	GD, RTCD, MRD GD (UDB, TCBB, UEPB), MRD (GMU, PYB) GD (UDB, TCBB, UEPB) MRD (GMU, PYB) EDM (ISS)	National Governments, local authorities, regional bodies, ministerial conferences UNDP UNCT
2. Urban planning, management and governance at the national and local levels improved <i>[MTSIP focus area 2]</i>	2.1 Improved capacities for urban governance at national and local levels [2] 2.2 Improved collaboration between countries with UN-Habitat on post-disaster or post-conflict reconstruction programmes [1]	RTCD RTCD	GD (DMP, Shelter Branch, UDB, TCBB), GD (UDB DMP, Shelter Branch, TCBB)	National Governments, local authorities, regional bodies, ministerial conferences UNDP UNCT
3. Access to land and housing improved <i>[MTSIP focus area 3]</i>	3.1 Strengthened Government and Habitat Agenda partners' capacities to ensure access to land and housing services [2]	RTCD	GD (SB, TCBB, UDB), MRD (GMU, PYB)	National Governments, local authorities, regional bodies, ministerial conferences
4. Access to environmentally sound basic infrastructure services with special focus on the unserved and underserved population expanded <i>[MTSIP focus area 4]</i>	4.1 Improved provision of water and sanitation, and solid waste management services [2] 4.2 International guidelines on access to basic services adapted and implemented [1]	RTCD RTCD	HSFD (WSIB, UFB), GD (SB, TCBB), MRD (GMU) GD (TCBB), HSFD (WSIB), MRD (GMU, PYB), EDM (ISS)	National Governments, local authorities, regional bodies, ministerial conferences

D. Subprogramme 4. Human settlements financing

Expected accomplishments	Sub-expected accomplishments	Unit responsible	Internal partners	External partners
1. Institutional efficiency and effectiveness in the provision of basic urban infrastructure services increased <i>[MTSIP focus area 4]</i>	1.1 Improved access to environmentally sound basic urban infrastructure services [1]	WSIB	RTCD, GD (TCBB, UEPB, UDB), MRD (GMU), PSD	African Development Bank, Asian Development Bank, IADB, European Investment Bank, Coca Cola, BASF, Lane Xang Minerals Limited in Nepal, Gender and Water Alliance
	1.2 Capacity of service providers strengthened [2]	WSIB	RTCD, MRD (UESD), GD (TCB, SB, UEPB, UDB), EDM (ISS), MRD (GUO, GMU, PYB)	International Water Association, Global Water Partnership, Cap-Net, Transparency International, IBNET, European Union, UNW-DPC, UNO-IDfA, USAID, National Association of Water and Sanitation Utilities in Mexico (ANEAS), National Water and Sewerage Corporation of Uganda
	1.3 Decisions informed by improved service delivery monitoring mechanisms [2]	WSIB		Google, Bill & Melinda Gates Foundation, UNICEF, WHO, UNDP, JICA, GTZ, WaterAid, International Institute for Geo-Information Science and Earth Observation (ITC)
2. Consumer demand for efficient and environmentally sustainable basic urban infrastructure and services met <i>[MTSIP focus area 4]</i>	2.1 Knowledge of basic urban services rights enhanced [1]	WSIB	RTCD (ROAAS, ROAP), GD (UDB, SB), GD (TCBB, UEPB), EDM (ISS)	OHCHR, Green Cross International, American Association for the Advancement of Science, COHRE
	2.2 Environmentally sound standards and practices in place [3]	WSIB	RTCD (ROA), GD (UEPB, TCBB, UDB, SB) EDM (ISS)	Project WET, APHRC, World Bank
	Sustainable consumption practices utilized [3]	WSIB	RTCD (ROAP) GD (UEPB, UDB, SB, TCBB), EDM (IS), MRD (GUO, GMU, PYB)	Project WET, APHRC, World Bank
3. Investment in affordable and social housing stock and related infrastructure increased <i>[MTSIP focus area 4]</i>	3.1 Established sustainable revolving credit and loan facilities [1]	UFB	PSD, RTCD, EDM (ISS, Press and Media Unit) GD (SB, UDB, TCBB), EDM (ISS), MRD (GUO, GMU, PYB, UESD) RTCD	Municipal and national governments and domestic financial institutions
	3.2 Local finance facilities to facilitate slum upgrading through a blend of commercial and community	UFB		Habitat for Humanity International, Shack/Slum Dwellers International, DFCU Bank, Azania Bank

Expected accomplishments	Sub-expected accomplishments	Unit responsible	Internal partners	External partners
	finance and partnerships between government, communities and private sector [2] 3.3 Effective mechanisms for technical assistance to Banks, microfinance institutions and community groups in housing finance [1]	UFB		AMAL, IFC, Millennium Cities Initiative, CHF International
4. E. Executive direction and management

Expected accomplishments	Sub-expected accomplishments	Unit responsible	Internal partners	External partners
1. Policy coherence in the management of human settlements activities of the United Nations system enhanced	1.1 Issues related to human settlements reflected effectively in international and intergovernmental meetings and conferences [1] 1.2 Awareness and involvement of Habitat Agenda partners in advocacy and formulation of policy increased [1]	OED, Information Services Section	All divisions,	
2. Timeliness of submission of documentation and performance reports to governing bodies increased	2.1 Information tracking systems implemented to ensure all internal and external correspondence and documentation is submitted or responded to in a timely manner. [3]	OED	All divisions	
3. Improved geographical representation and gender balance of suitably qualified and experienced staff	3.1 Active programme to encourage qualified candidates (with particular consideration for gender and regional balance) to apply for positions within UN-Habitat [1]	OED/PSD	All divisions	
4. Timely recruitment and placement of staff	4.1 Effective management and reporting human resources system established [3]	OED/PSD	All divisions	
5. Results-based management principles applied <i>[MTSIP focus area 6]</i>	5.1 Programmes derived from medium-term strategic and institutional plan results [1] 5.2 Performance measurement and evaluation informs decision-making and programming [1] 5.3 Quality standards consistently applied in the achievement of planned results [2]	OED PSD, M&E PSD	All divisions	
6. Financial resources to deliver medium-term strategic and institutional plan results available <i>[MTSIP focus area 6]</i>	6.1 Effective mobilization of resources to achieve MTSIP results [2] 6.2 Allocation of resources to MTSIP priority results through transparent system [2]	RMU/OED PSD/OED	All divisions	
7. Programme of work effectively managed.	7.1 Knowledge management systems used effectively [1] 7.2 Delegation of authority established within an accountability framework [3] 7.3 Efficient business processes applied [2] 7.4 Staff competencies related to the MTSIP [2]	OED PSD/ OED PSD	All divisions All divisions	

Expected accomplishments	Sub-expected accomplishments	Unit responsible	Internal partners	External partners
8. Institution aligned to deliver medium-term strategic and institutional plan results <i>[MTSIP focus area 6]</i>	8.1 Rationalized organizational structure [2]	OED	All divisions	
	8.2 MTSIP focus area result delivery system operational [2]	OED		

F. Programme Support Division

Expected accomplishments	Sub-expected accomplishments	Unit responsible	Internal partners	External partners
1. Staff are empowered to achieve planned results <i>[MTSIP focus area 6]</i>	1.1 Staff competencies related to medium-term strategic and institutional plan strengthened [1]	PSD	All divisions	
	1.2 Incentive structure for performance in place [3]	PSD		
	1.3 Delegation of authority established within an accountability framework [2]	PSD		
	1.4 Efficient business processes applied [1]			
2. Results-based management principles applied <i>[MTSIP focus area 6]</i>	2.1 Programme derived from medium-term strategic and institutional plan results [1]	PSD	All divisions	
	2.2 Quality standards consistently applied in the achievement of planned result [2]	PSD		
3. Financial resources to deliver MTSIP results available. <i>[MTSIP focus area 6]</i>	3.1 Resources allocated to medium-term strategic and institutional plan priority results [1]	PSD	All divisions	
	3.2 Improved integrity of financial data [1]	PSD		
	3.3 Improved monitoring and control of programme budget and extrabudgetary activities [2]	PSD		

Annex III

Organizational structure and post distribution for the
biennium 2012–2013

Annex IV

Assumptions and methodology

A. Assumptions for 2012–2013

1. *Vacancy rates*

Vacancy rates of 9.6 per cent for professional staff and 4 per cent for General Service staff are assumed in costing posts for 2012–2013.

2. *Inflation*

Inflation factors have not been applied either to direct programme activities or to United Nations regular budget costs, as this will be done later by United Nations Headquarters at the time of the adoption of the regular budget by the General Assembly, in 2011.

The following inflation rates are assumed for the Nairobi duty station:

- (a) Posts: an average of 7.6 per cent for the biennium;
- (b) Non-staff: an average of 6.6 per cent for the biennium.

The above inflation rates for posts have been applied to the United Nations regular budget standard salary costs, version 5 (as used in the 2010–2011 initial appropriation), after adjusting for the above vacancy rates.

3. *Exchange rate*

An exchange rate of 78.7 Kenya shillings to the United States dollar is assumed.

B. Methodology: biennial support budget¹⁹

The methodology involves several sequential steps in calculating estimates. These calculations are carried out separately for each year of a biennium. Essentially, the methodology is to take the approved appropriations for the first year of the current biennium and add the volume and cost adjustments, which results in the estimates required for the first year of the proposed biennium. Similarly, the approved appropriations for the second year of the current biennium are updated to result in the estimates required for the second year of the proposed biennium. It should be borne in mind that, normally, the time during which estimates are prepared for the proposed biennial support budget is the third quarter of the first year of the current biennium. A description of each sequential step follows.

1. *Volume adjustments*

First, using the approved appropriations as a base, real increases or decreases in requirements are calculated and designated as volume changes. Volume changes represent the controllable elements in the estimates, subject to the Executive Director's assessment of what the organization requires to perform the tasks with which it is entrusted. Volume changes are calculated at the same price levels as the approved appropriations in order to facilitate comparison with the currently approved base.

2. *Various cost adjustments*

To the approved appropriations and volume changes are added cost increases or decreases attributable to changes in rates or conditions not tied to currency or annual inflation adjustments. They reflect only known changes that have occurred in the two years since the preparation of the previous biennial support budget. Such cost factors include, for example, decisions of the International Civil Service Commission on a variety of staff entitlements (such as dependency allowance and education grant). For staff cost adjustments, the standard salary cost formulated by United Nations Headquarters is used.

3. *Currency adjustments*

Currency adjustments are then calculated by year on the total of approved appropriations, volume and various cost adjustments. These currency adjustments would normally be the difference between the United Nations operational rate of exchange in effect on, for example, 1 July of the year preceding the current biennium and, for example, on 1 July of the first year of the current biennium (that is, the time of preparation of the proposed biennial support budget).

¹⁹ The same methodology on cost adjustments will be followed in respect of the biennial programme budget.

Annex V

World Urban Forum

1. The World Urban Forum is convened pursuant to operative paragraph 10 of resolution 18/5 of the Commission on Human Settlements in which the Commission requested the Executive Director “to promote a merger of the Urban Environment Forum and the International Forum on Urban Poverty into a new urban forum, with a view to strengthening the coordination of international support to the implementation of the Habitat Agenda.” Subsequently, the United Nations General Assembly decided, in its resolution 56/206, that the Forum would be a “non-legislative technical forum in which experts can exchange views in the years when the Governing Council of the United Nations Human Settlements Programme does not meet.” At the same session, the General Assembly, in paragraph 7 of its resolution 56/205, encouraged local authorities and other Habitat Agenda partners to participate, as appropriate, in the World Urban Forum in its role as an advisory body to the Executive Director of UN-Habitat.

2. The World Urban Forum held biennially, as an advisory technical meeting aims to:

- Facilitate the exchange of experiences and the advancement of collective knowledge among cities and their development partners in the field of shelter and sustainable urbanization;
- Promote strong participation by Habitat Agenda partners and relevant international programmes, funds and agencies, thus ensuring their inclusion in the identification of new issues, the sharing of lessons learned and the exchange of best practices and good policies;
- Promote further cooperation and coordination among development agencies in the implementation of the Habitat Agenda, the Declaration on Cities and other Human Settlements in the New Millennium and the United Nations Millennium Declaration.

3. The recommendations of the World Urban Forum are submitted to the Governing Council for endorsement and onward noting by the General Assembly. New substantive information emerging from the proceedings of the Forum enriches the knowledge base of the Agency and informs subsequent work programmes. Participants at the Forum include national Governments, local authorities, Global Parliamentarians on Habitat, non-governmental organizations, community-based organizations, media organizations, human settlements professionals, research institutions and academies of science, the private sector, business and non-profit sectors, foundations, relevant United Nations organizations and other international agencies.

4. The World Urban Forum is an advocacy platform whose activities cut across all the divisions of UN-Habitat. By bringing all Habitat Agenda partners under one roof for a one-week discussion on human settlements issues, it provides an effective mechanism for promoting new partnerships; strengthening international cooperation; enriching policy debates; boosting knowledge dissemination and peer reviews; the sharing of best practices; and capacity-building. The Forum is an invaluable image-building mechanism for UN-Habitat whose functions fall within focus area 1 of the medium-term strategic and institutional plan, while the substantive activities undertaken at the Forum are cross-cutting in nature and contribute to all five substantive focus areas.

5. With an increase in participation from around the world and a variety of types of events addressing different audiences and partner groups, the World Urban Forum has evolved to become the world’s premier platform for interaction between policymakers at all levels of government and diverse non-government actors, all of whom are active and valuable interlocutors in and implementers of the Habitat Agenda in an increasingly urbanized world, in which social inequity is more easily deepened than it is bridged.

6. The theme of a Forum session is negotiated by the Executive Director and the host country to build on the outcome of the previous session and to reflect the priority concerns of the host region together with relevance to the Habitat Agenda and the medium-term strategic and institutional plan. Since the fourth session, held in Nanjing, China, the theme of the Forum has been closely aligned with the State of the World Cities report – the widely quoted and authoritative UN-Habitat flagship report. This arrangement was achieved with guidance from the Committee of Permanent Representatives and the Governing Council. The choice of theme for and content of sessions of the Forum thus represents a delicate balance between the needs of the hosting region and the UN-Habitat global monitoring of cities and research agenda as widely acknowledged by partners around the world. The resulting

synergy has promoted better understanding and appreciation of the challenges of rapid urbanization, which has, in turn, continued to promote international collaboration for addressing them.

7. The Forum currently comprises the following programme elements: world urban youth assembly, gender equality action assembly; opening ceremony; opening plenary; dialogues; pre-forum e-debates which are conducted over several months; round tables; networking events; special session; training events; side events; business caucus; seminars and an international exhibition. Based on projections and popular requests, additional events proposed for future sessions of the Forum include: a round table on knowledge management; a (youth) art and culture presentation; the launch of the State of the World Cities report; launches of regional state of cities reports; a one-United Nations event; a World Urban Campaign event.

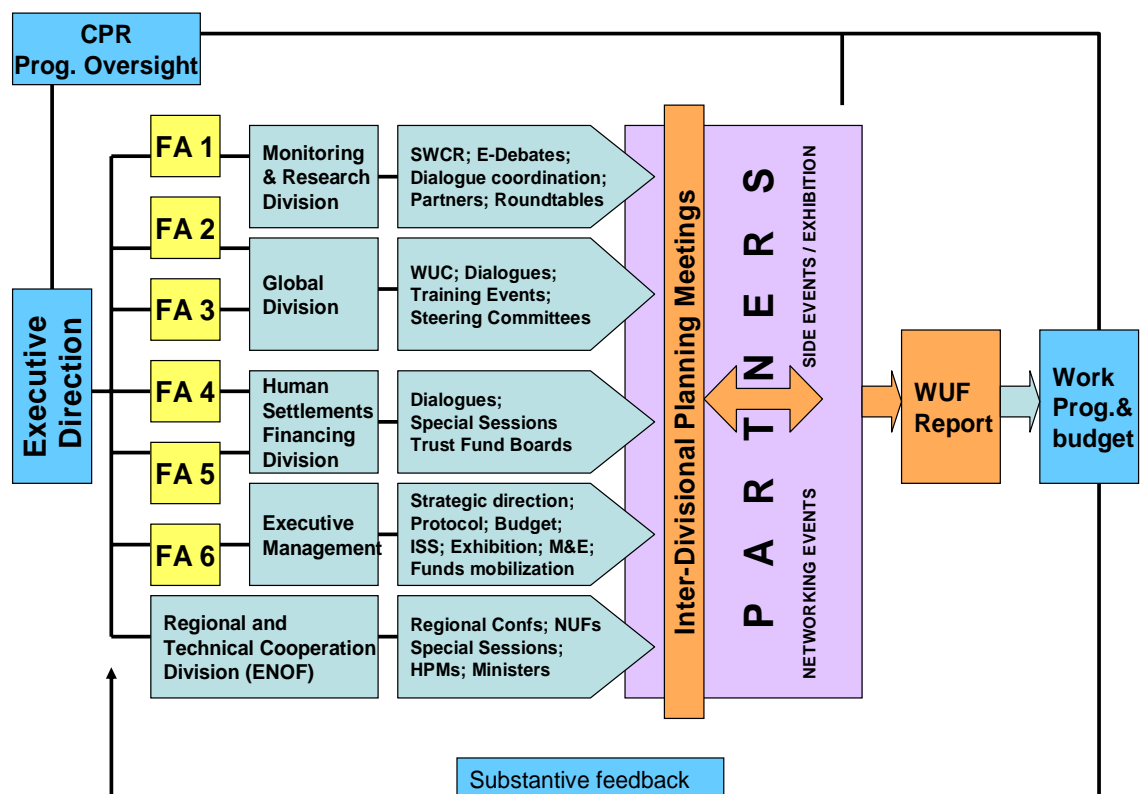

8. Whereas the intergovernmental platform provided by the Governing Council deliberates formally on the UN-Habitat mandate and endorses its work programme and budget, the World Urban Forum is unique in nature being open-ended and inclusive of all partners. Events at sessions of the Forum provide the opportunity for Governments to engage with non-government actors from their countries and around the world with the potential for shaping more inclusive urban development policies.

9. The World Urban Forum Unit was formally established by paragraph 71 of the work programme and budget for the biennium 2008–2009, as follows:

Subsequently, taking note of Governing Council resolution 20/10 on the World Urban Forum and noting both the significant expansion of the event and the consequent increase in the workload of the Governing Council secretariat, the creation has been proposed of a World Urban Forum unit in the Executive Director's office, so as to ensure that adequate organizational and substantive support is provided by the programme in preparations for future sessions of the World Urban Forum. This unit will contribute 40 per cent of its time and effort towards providing support to the governing bodies and other major global and regional conferences, including the AMCHUD, Africities and the Asia-Pacific Ministerial Conference on Housing and Human Settlements (APMCHHS). The remaining 60 per cent will be spent on preparations for the main event, including substantive outputs and ensuring that the emerging trends, lessons learnt and policy recommendations will be effectively disseminated during these meetings and subsequent sessions. In addition the unit will also develop mutually beneficial synergies with partners, including development agencies, in the implementation of the Habitat Agenda. The unit will be set up with two Professional Posts (one P-5 Coordinator and one P-3 Human Settlements Officer) and two General Service posts (one Logistics Assistant and one Administrative Assistant).

10. The unique value and potential of the Forum lies in its comparatively 'informal' nature arising from its non-legislative status. Unless the capturing of its outcomes is strengthened and a follow-up mechanism is established to track its impact and progress among key partners in this same attribute lies its potential demise. As part of the continuing review of the governance structure of UN-Habitat, Member States may wish to consider the identified quick-wins and medium-term and long-term interventions in relation to the Forum and make recommendations through the Committee of Permanent Representatives to the Governing Council.

Programmatic position of WUF in UN-Habitat

World Urban Forum outputs in the work programme for the biennium 2012–2013

1. Executive direction and management

Expected accomplishment: (a) Enhanced policy coherence in the management of human settlements activities of the United Nations system

Sub-expected accomplishment (a) 1: Human settlements issues reflected effectively in international and intergovernmental meetings and conferences [1]

Outputs:

Substantive servicing of meetings

- (b) Sixth session of the World Urban Forum (WUF) (1)

Parliamentary documentation

- (a) Documentation for WUF-6 (1)

Sub-expected accomplishment: (a). 2 Increased awareness and involvement of Habitat Agenda partners in advocacy and formulation of policy

Non-recurrent publications

- (b) Report of WUF-6 (1)

Other substantive activities

- (a) Media material, including press releases, audio-visual material and press conferences for the organization, especially the World Urban Forum) (30)
- (b) Advocacy support for World Urban Campaign (1)
- (c) E-debates in support of the WUF (6)

2. Subprogramme 1: Shelter and sustainable human settlements development

Expected accomplishment (a): Improved policies, legislation and strategies support inclusive urban planning, management and governance

Sub-expected accomplishment (a)2: Policy advocacy improved, including through the World Urban Campaign [2]

Special events

- (a) WUF6 dialogue related to urban environment and planning (1) and dialogue on governance-related topic with associated supplementary debates (1)
- (b) UNACLA dialogues on local governments, including associated supplementary debates, during WUF6 and twenty-fourth session of the Governing Council (GC24) (2)
- (c) Sustainable Urban Development Network (SUD-Net): WUF6 dialogue on city management with associated supplementary exhibition (1)
- (d) World Urban Campaign steering committee meeting at WUF (1); partners round-table meeting at WUF (1); partners dialogue at GC24 (1)

3. Subprogramme 2: Monitoring the Habitat Agenda

Expected accomplishment (a): Improved awareness of sustainable urbanization conditions and issues at the local, national and global levels

Sub-expected accomplishment (a)1.: Effective dissemination of evidence-based knowledge on urban issues with focus on sustainable urban transport and economic contribution of cities [1]

Parliamentary documentation

- (a) Concept paper on WUF (in collaboration with all subprogrammes) (E, A) (1)

Expected accomplishment (b): Habitat Agenda partners actively participate in the formulation of sustainable urbanization policy

Sub-expected accomplishment (b)1.: Improved awareness leads to increased participation by Habitat Agenda partner [1]

Special events

- (a) Global parliamentarians conference on their role in sustainable urbanization (1)

- (b) WUF board meetings, e-debates, round tables and special sessions on: world urban youth assembly (1); youth round-table session (1); civil society organizations (1); Arab civil society organizations special session (1); global Habitat Business Award for better cities delivered at the Habitat business forum (1); global parliamentarians on habitat round-table meeting (1)
- (c) Youth advisory board meeting at the twenty-fifth session of the Governing Council (1)

4. Subprogramme 3: Regional and technical cooperation

Expected accomplishment (a): Improved sustainable urbanization policies from local to regional levels

Sub-expected accomplishment (a)1: Improved national focus on sustainable urbanization policies [1]

Parliamentary documentation

- (a) Ministerial Meetings on housing and urban development and Regional State of the Cities Reports (in collaboration with other UN-Habitat divisions) (S) (1)

World Urban Forum events: Ministerial Round table report (1); Mayors Round table (1); South-South Cooperation report (1); Thematic Dialogues documentations (1); Side Events reports (3)

Pre-World Urban Forum 6 (1)

5. Subprogramme 4: Human settlements financing

Expected accomplishment (a): Increased institutional efficiency and effectiveness in the provision of basic urban infrastructure services

Sub-expected accomplishment (a) 1: Improved access to environmentally sound basic urban infrastructure services [1]

Special events

- (a) Servicing of WUF6 (1)
- (b) Servicing GC24 (1)

Supplementary information on the World Urban Forum activities and budget

(as incorporated in the work programme and budget for the biennium 2012–2013)

Description		Estimated staff costs	Estimated non-staff costs	Total cost
<i>Funding support by UN-Habitat</i>				
	Preparatory activities <ul style="list-style-type: none"> • Conference agreement (negotiation and signing) • Visas, protocol, budget, conference services, logistics, including venue set-up, hotel, travel • Invitation, registration, information, website and marketing • Event applications and selection • Least developed country participants • Electronic debates (6 over 3 months) • Advocacy and partner mobilization (Habitat programme managers and national urban forums) • Production of publications and promotional materials, press and media forum programme • Translation of documents into other languages 	1 040 310	1 034 750	2 075 060
	Main activities during session <ul style="list-style-type: none"> • Opening and closing sessions (2) • Opening plenary session (1) • Dialogues (6) • Thematic open debates (12) • Round tables (13) • Launch of the State of the World Cities report • Launch of regional state of cities reports and other programme reports (4) • World Urban Youth Assembly (16) • Gender Equality Action Assembly (14) • Training events (30) • Special sessions (8), e.g., South-South cooperation, SUD-Net event, Habitat lecture award • Networking (200) and side events (60) • Seminars and business caucus (6) • World Urban Campaign (2) • One-United Nations event (2) • Youth art competition (1) • Interpretation into other languages (Arabic, English, French, Spanish and host country language) • Press conferences • Exhibition • Report-writing 	662 015	2 082 941	2 744 956
	Closing and clean-up activities <ul style="list-style-type: none"> • Final World Urban Forum report in English • Preparation of financial report • Evaluation of divisional programmes 	189 147	121 475	310 622
Subtotal				5 130 638
Contributions from the host country				3 300 000
Grand total				8 430 638

Note:

The funding distribution is as follows: \$256,532 from the regular budget (3 per cent), \$2,308,787 (27 per cent) from the Foundation general purpose, \$5,865,319 (70 per cent) from earmarked contributions, of which \$3.3 million (equivalent to 39 per cent of the overall budget) is from the host country.

Contributions from the host country support the preparatory activities (e.g., preparatory mission, publicity and marketing, distribution, publication, printing, translation, staff hired to assist in preparation, etc.), main activities during event (e.g., travel of staff members, least developed country participants, experts, panelists, speakers, moderators, etc., exhibition costs, printing and translation of in-session documents, report-writing), and closing activities (e.g., translation and printing of final World Urban Forum report and evaluation costs).
