Lesson learned

National and Local
Academia

individual relationship does not encourage deposit of information and knowledge in capacity building

individual relationship does not support sustainability of expertise in training activities

Proposition

set up collaboration with academic institution

integration to a regular and formal training program

YIPD

Lesson learned

National and Provincial
Government

dependent on leadership and national policy

compete with ministerial training programs

Proposition

training process applicable to different sector and issues

integration to other programs : TA, review. award

YIPD

Lesson learned

Local Government

dependent on leadership and period of mayoralty

impact of political change to sustainability of training activities

Proposition

regular contact and communication with the government's organization

training material be promoted to other local government

YIPD

Lesson learned

Private Sector

tailor-made to special topic and local issues

dependent to corporate interest

bounded to corporate territorial

Proposition

modification of training material for similar cases

case-based training program

Needs for capacity building

national level

Ability to formulate comprehensive policy

Ability to assess diversity of local issues and problems

provincial level

Ability to coordinate diverse local governments

Ability to encourage cooperative networking

local level

Ability to manage public services, financial & human resources

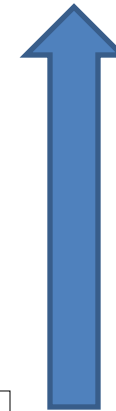

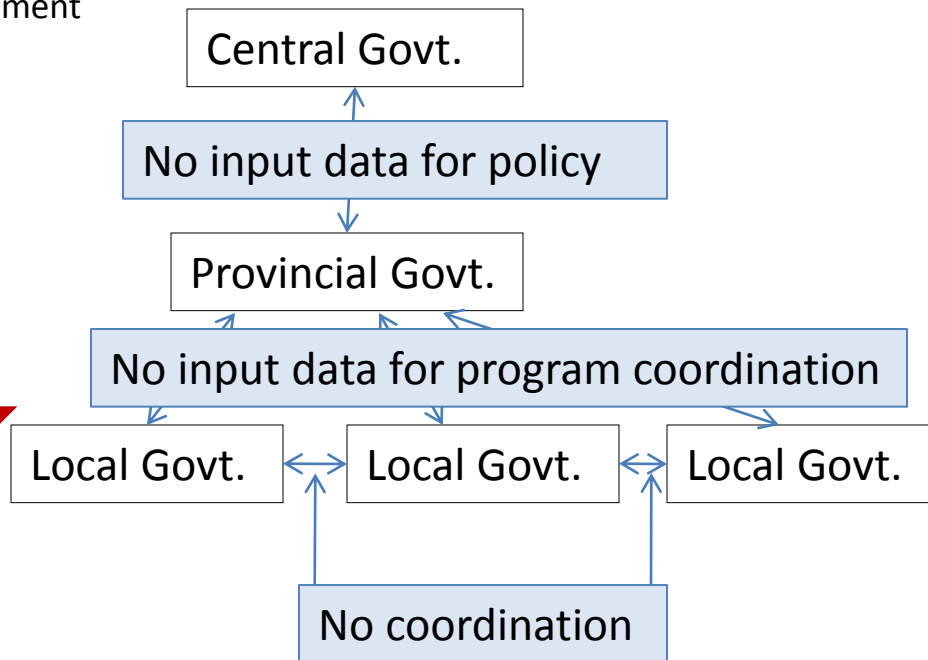

Ability to formulate local regulation

Ability to develop strategic plan

YIPD
